X-APPEAL™ COMPETITION RECURVE

2011

The PSE X-Appeal™ riser was designed by a team comprised of PSE Engineers and PSE shooters including Olympians and World Champions. The team began by using the foundation of the long running success and unique design features of the PSE X-Factor™. The goal of the project was to create a new riser that inspires confidence by bringing technological improvements to a proven platform. From the improved limb alignment system to the stylish curves, every feature of the X-Appeal™ was scrutinized by PSE and our professional shooting staff to bring the best of the best to the PSE customer. To get where you want to be, maybe the only thing you need is X-Appeal™.

PSE X-PRESSION™
COMPETITION RECURVE LIMBS

PSE COMPETITION RECURVE LIMBS

Choose from three beautiful,
polished and anodized colors!

The new limb alignment system on the PSE X-Appeal™ is designed to provide micro adjustable limb alignment and positive locking in an easy to use, robust mechanism. The limb alignment screws thread directly into the steel limb anchor block and the locking screws are easily accessible for quick, positive adjustments.
