2015 PRODUCT GUIDE

FIVICS

"The products which is considered the future after 100years" (All-time value)

Endless researching and testing for the archery is Fivics's spirit. Please enjoy using of new high technology equipment from Fivics!

Story of Archery Café

January, 2015, Fivics has launched Archery Café for sharing, enjoying and communicating the archery in the special place.

- Symbol : Archery + Café
- Harmony : Opened for not only shooter but also anybody
- Environment : All equipments here
- Principle : Integrity, accuracy, standard, communication and public

HP0427 | PLATINA 27" RISER HP0425 | PLATINA 25" RISER

- CNC cutting production
- Hard anodizing surface
- Two types of length
- Triple damping system
- Easy clicker extension
- Comfortable rest line

SPECS

| | |
|----------|--|
| LENGTHS | 25", 27" HARD ANODIZING |
| MATERIAL | Aluminum(6061), BTR300 Rubber |
| WEIGHT | 25" 1,320g / 27" 1,365g |
| TYPE | RH / LH |
| GRIP | Normal |
| COLOR | BLACK, BLUE, KHAKI, GRAY, RED (HardAnodizing) |

25"

27"

Simple and easy to adjust the center of raiser and limbs

You can adjust the center-shot easily without un-string the bow. There are three special designed bolts and you just need only screw which is included.

Easy clicker extension and rest line

You may check the scale of guide line which is located in clicker extension and check it as you wanted. It will show your best shooting chance. There is another scale of guide line for rest and you may find your best position of rest.

Ideal grip

It provides shooter with exact pressure point during shooting and you can feel how comfortable and stable postures are generated.

Triple damping system

Triple dampers which are located in the center of grip and inside of upper and lower caps can reduce vibration and noise during shooting.

Finger Tab

NEW SAKER+^{EP}

SFT04A | Saker+ Plus finger tab.

- > **Weight control system**
- > **Angle adjustment system**

Saker+ Plus finger tab has 6mm of thickness and added ① weight control and ② angle adjustment system by using of precisely machining aluminum plate.

Saker+ Plus finger tab can be adjusted depending on individual characteristics and allows more stable hooking position and it makes possible to shoot perfectly in any competition.

And also, it is very easy to cover the special parts for the thumb and little finger. We have considered only shooter's convenience and individual characteristics always.

Saker+ Plus finger tab's spacer is designed for the bending of the shaping as well it looks like the elephant-shape and makes comfortable for shooters.

Fivics is using high quality cordovan leathers only which is provided by H company with one hundred years history in U.S.A

Finger Tab

Angle adjustment system

EP : Published on WA's rule book!!

Like an elephant's movement and weight, Fivics's EP is applied their magnificent appearance. Since Saker tap's EP was approved by WA, 2012, EP system has published on WA's rule book in 2014. Fivics has been continually studying and developing archery goods just for shooter's higher score only.

Weight control system

Cover the special parts for the thumb and little finger

POLITE SERIES

reddot award 2014
winner

1. The most excellent quality finger tab in the world.
2. Emphasizes the sense of unity in your hands.
