LEADING THE WAY  
2010

# LEADING THE WAY

Nearly 20 years of developing exceptional products has brought us to our most exciting product line ever. For 2010 we are continuing to Lead the Way and "Revolutionize Rubber" by completely reinventing our entire product offering, including the Doinker! Introducing the ALL NEW DOINKER SUPREME- (Patent Pending)- the most durable, effective and efficient dampener we have ever created.

CAUTION

The new Doinker Supreme employs an incredibly sleek and sophisticated dampener constructed of legendary Doinker ITP (Interrupted Transfer Polymer) that's built right into the end cap. Completely adjustable to the shooter's liking, this modern unit readily works with various Doinker weight systems for complete customization. The new Doinker Supreme has been incorporated into nearly every stabilizer offered for 2010 and is sure to revolutionize the way archers view dampening and stabilization.

ARCHERY  
IN PROGRESS

Although nearly every product for 2010 is entirely new, we are exceptionally proud to announce for 2010, the Doinker Fatty Series is back with no equal after a four-year hiatus. The new and improved Fatty Series utilizes the Doinker Supreme for maximum effectiveness. Taking note from great plate-style stabilizers of the past by Terry Wunderle and Freddie Troncoso, we have added to the ground-breaking Doinker DISH line-up with the New Small and Mini DISHes designed to augment nearly every stabilizer in this year's line. Small and Mini DISHes are as unique as every shooter's fit, feel and style and designed to find an equally comfortable home on a FITA set up or a hunting stabilizer for the back 40.

Since 1993 we have been on the leading edge of stabilizer production. For 2010 we have renewed our commitment to continue this tradition with a state-of-the-art Swiss Screw Machine and various molding and finishing equipment. No other manufacturer uses higher quality parts, engineering or equipment. This, again, proves Doinker is on the forefront of innovation and truly "Leading the Way".

# Doinkers

The Doinker Supreme is like no other Doinker we have ever created. The patented ITP Technology is the most dominating force on unwanted bow torque, noise, and vibration. By affixing one of the versatile Doinkers to your bow or stabilizer, you will destroy bow oscillation, vibration, and noise - helping you to improve your shooting accuracy. With a wide range of sizes and configurations to choose from, including the Pee Wee Doinker, there's a model to fit every bow and shooting style.

## Doinkers & Suppressors

### Dinky Doinker

**DK34-1**  
3/4" Dinky Doinker, 0.5oz each  
1/4-20 Thread Size

### Adapter Screw

**AS**  
Doinker Adapter Screw  
5/16-24 to 1/4-20 Thread Size

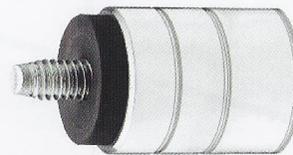

### PeeWee Doinker

**PWD**  
PeeWee Doinker, 0.3oz  
Set of 2  
8/32-20 Thread Size M

### DSI

1-3/8" Doinker Supreme, 1.6oz  
1/4-20 M 5/16-24 F Thread Size

### DS 7/8

7/8" Doinker Supreme, 0.8oz  
1/4-20 Thread Size M&F

### EZE

Doinker Sight EZE, 0.9oz  
10/32 F Thread Size

### MS1

4.25" Supression Mount-Silver, 4.5oz  
(Also Available in Black)

### TLS

4.5" Top Limb Suppressor, 4.7oz

# TARGET *Kid-O Series*

## Kid-O Series

### KD7

7" Kid-O Stabilizer, Black, 2.0oz

### KD15

15" Kid-O Stabilizer, Black, 2.5oz

# Alumi-Komp Series

## Alumi-Komp Series

Aluminum Weight Included

### SA25

25" Alumi-Komp Stabilizer, 7.4oz

### SA30

30" Alumi-Komp Stabilizer, 7.9oz

### SAV8

8" Alumi-Komp V-Bar Set, 10.4oz

### SAV10

10" Alumi-Komp V-Bar Set, 10.9oz

## Universal STACK Weights

1/4-20 Thread Size

For Universal Stack Weight

# TARGET *Avancee' Series*

## Avancee' Series

Aluminum Weight Included  
(Also Available in Black)

### ADS18

18" Avancee' Carbon Stabilizer, 4.3oz

### ADS24

24" Avancee' Carbon Stabilizer, 4.7oz

### ADS27

27" Avancee' Carbon Stabilizer, 5.0oz

### ADS30

30" Avancee' Carbon Stabilizer, 5.2oz

### ADS34

34" Avancee' Carbon Stabilizer, 5.5oz

## Soft End-Cap

### WCS1

1/4-20 Thread Size Soft End Cap  
For DAWG Weight

## DAWG Weights

1/4-20 Thread Size

### DAWG

DAWG Weight Stainless, 5.2oz

### DAWGB

DAWG Weight Black, 5.2oz

### DAWL

DAWG Weight Aluminum, 1.9oz

# Avancee' Series

## Doinker Supreme V-Bars

Aluminum Weight Included  
(Also Available in Black)

### DSV8

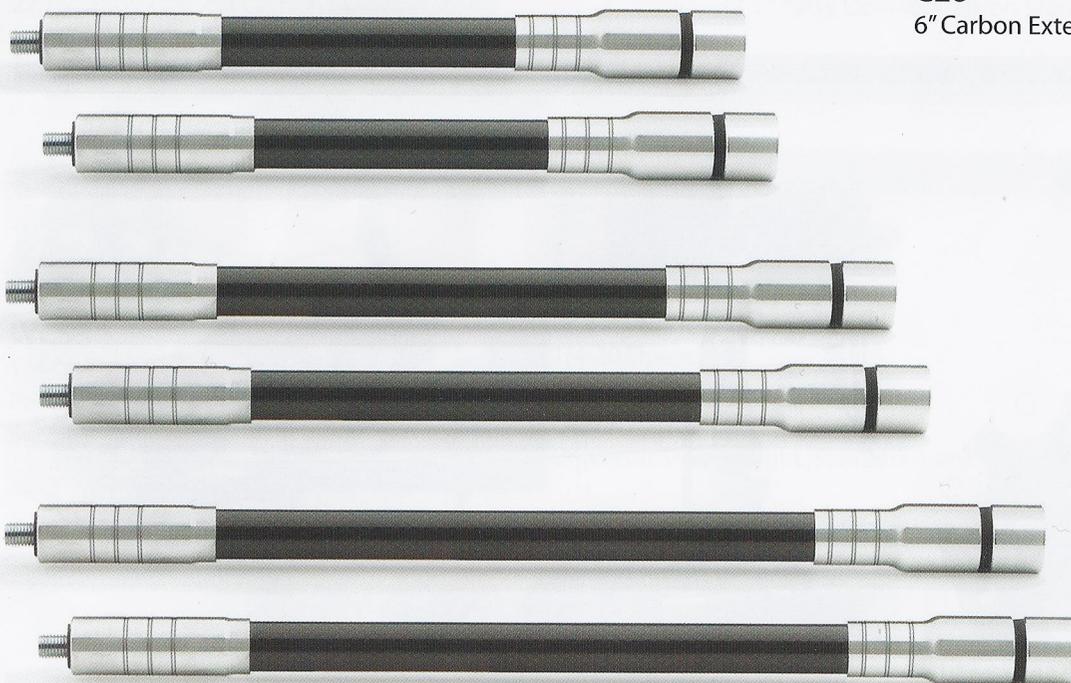

8" Doinker Supreme V-Bar Set, 6.0oz

### DSV10

10" Doinker Supreme V-Bar Set, 6.2oz

### DSV12

12" Doinker Supreme V-Bar Set, 6.3oz

## Carbon Extensions

(Also Available in Black)

### CE3

3.125" Carbon Extension, 1.4oz

### CE4

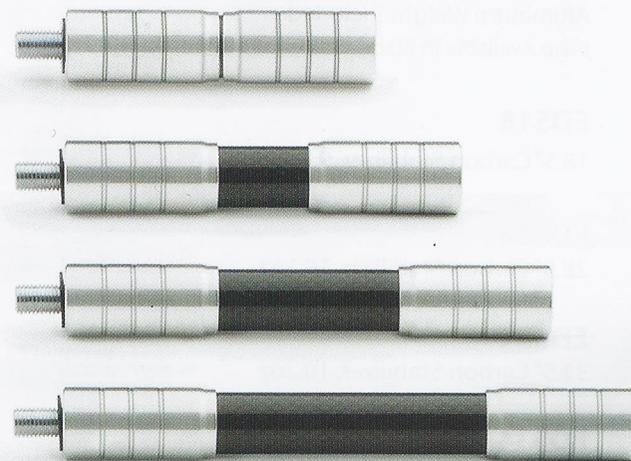

4" Carbon Extension, 1.4oz

### CE5

5" Carbon Extension, 1.5oz

### CE6

6" Carbon Extension, 1.6oz

### TLS

4.5" Top Limb Suppressor, 4.7oz

# TARGET *Elite Series*

## Elite Doinker Supreme Stabilizers

Aluminum Weight included  
(Also Available in Black)

### EDS18

18.5" Carbon Stabilizer, 9.2oz

### EDS28

28.5" Carbon Stabilizer, 10.1oz

### EDS31

31.5" Carbon Stabilizer, 10.2oz

### EDS34

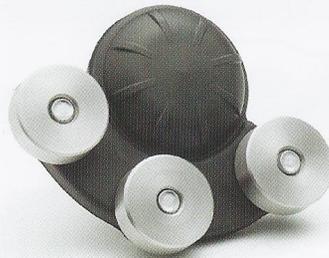

34.5" Carbon Stabilizer, 10.4oz

## Doinker DISH Conversion Kits

### MDK

Mini Doinker Dish Kit  
Fatty/Elite Stabilizers,  
7.0oz

### SDK

Small Doinker Dish Kit  
Fatty/Elite Stabilizers,  
8.9oz

# Fatty Carbon Series

## Elite Fatty Doinker Supreme Stabilizers (Also Available in Black)

Aluminum Weight included

### EFDS27

27" Elite Fatty Doinker Carbon Stabilizer, 10.9oz

### EFDS37

37.5" Elite Fatty Doinker Carbon Stabilizer, 12.0oz

## Fatty Doinker Supreme Stabilizers

Aluminum Weight included

### FDS22

22.75" Fatty Doinker Carbon Stabilizer, 6.0oz

### FDS33

33.5" Fatty Doinker Carbon Stabilizer, 7.3oz

## Fatty Doinker V-Bar (Also Available in Black)

One Bar Only- Aluminum Weight Included

### EFSB12

12.25" Fatty Doinker Carbon V-Bar, 6.0oz

# DOINKER D.I.S.H

The Doinker D.I.S.H (Distal, Interrupted, Stabilizer, Hub) is an all-new concept in stabilizer utility and performance. The super-sized Hub acts like a Doinker on steroids as it champions bow torque, noise, vibration and shock. The Patent Pending Hub employs our proprietary Interrupted Transfer Polymer and is the most effective Doinker we have ever constructed. Adding to this stabilizers unique concept is its 4.5-inch flexible, variable weight disc that uses our proprietary STACK Weights to weight the forward end. By putting the weight at the distal end of the stabilizer, shooters are able to aim steadier and make the most of a stabilizer's two main functions: stabilization prior to the shot, and dampening after the arrow is released. The Doinker D.I.S.H is exceptionally unique in its design and affords complete weight customization from a feathery 6 ounces, up to a robust 2 pounds, 14 ounces! A complimentary quick disconnect allows you to effortlessly mount and dismount the D.I.S.H for easy transport and travel.

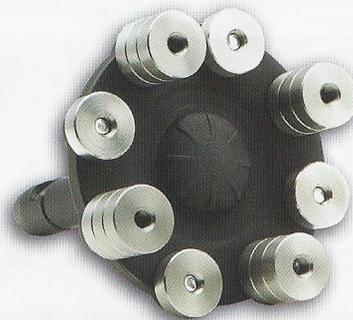

Though the look is unorthodox - its performance is unmatched. The new Doinker D.I.S.H has been designed with hunters and target archers in mind, functioning equally well when shooting in the field or at the range. Fasten a Doinker D.I.S.H to your bow this year and experience shooting that's truly out of this world.

New for 2010 are the Small and Mini DISH designed specifically to be added to the end of all of our 2010 Stabilizers. These smaller versions of the original DISH offer many of the same benefits in a tighter package designed to work well at the line or in the woods.

## Doinker DISH Four weights included

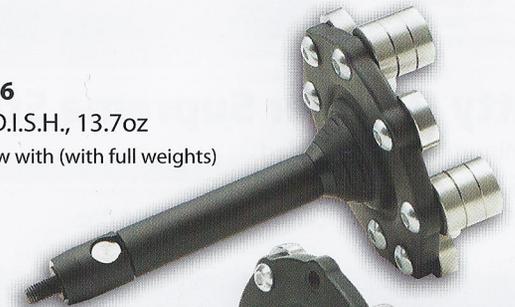

**D.I.S.H.**  
Distal-Interrupted-Stabilizer-Hub  
Patent Pending

**DD2**  
2.75" D.I.S.H. Hunter, 10.8oz

Front View -w/ add on  
full weights

**DD6**  
6" D.I.S.H., 13.7oz  
show with (with full weights)

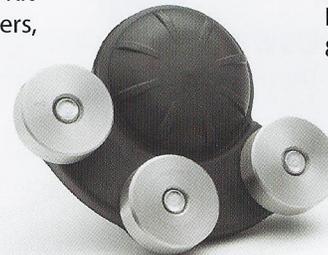

**DD12**  
12" D.I.S.H., 13.3oz

## Doinker DISH Conversion Kits Four weights included
