LYNX QUIVERS

The Lynx features a "wrap-around" hood style and a light weight, durable molded stem. A second retainer bar & cut away hood eases removal & installation of your arrow shafts.

Retainers hold arrows with fixed or mechanical broadheads inside a replaceable, sound dampening hood liner.

"Includes retainers for Carbon & Small Diameter Carbon"
Lynx 6 weight: 8oz. • Lynx 4 weight: 6oz.

LYNX 6

- 1039... Classic Black
- 10868... RealTree APG®
- 10988... MossyOak® Break-Up® 3D
- 10948... RealTree Hardwoods HD® Repeat

LEVER-LOCK MOUNTING SYSTEM

"Flip" the lever and your quiver is locked in place. Release the lever and your quiver silently slides out of the mount.
1073... Lever-Lock

REPLACEABLE LINER

All Lynx & Panther style quivers have a sound dampening, replaceable hood liner. Molded to provide a perfect fit.
10393... Lynx/Panther 6 Liner
10383... Lynx/Panther 4 Liner

LYNX & PANTHER 4 QUIVERS ARE AVAILABLE IN BLACK, LOST CAMO™, REALTREE® APG® REALTREE® HD GREEN® & MOSSYOAK® BREAK-UP®!

LYNX & PANTHER 6 QUIVERS ARE AVAILABLE IN BLACK, REALTREE® APG® AND MOSSYOAK® BREAK-UP®!

- 10947... RealTree Hardwoods HD® Repeat
- 10817... Mathews Lost Camo™

ALL LYNX & PANTHER QUIVERS AVAILABLE IN REALTREE® HD REPEAT® WHILE SUPPLIES LAST.

PANTHER QUIVERS

"TURN YOUR QUIVER INTO A SOUND DAMPENER"!

Panther quivers incorporate all the winning features of the Lynx, with a "twist"! The indestructible, flexible stem turns your entire quiver into a vibration dampener! With the Panther's "Sound Dampening" stem, noise causing vibrations are immediately dissipated when your bow is fired. So go ahead, shoot with your quiver installed!

"Includes retainers for Carbon & Small Diameter Carbon"
The Panther is a "sound" asset, not a "sound" liability!

Made from a special blend of material that allows the stem to quickly dissipate vibration!"

BRAIDED LEATHER WRIST SLING

Braided leather wrist sling is fully adjustable, light & very comfortable.

1605...Braided Leather Wrist Sling

ACCESSORIES BAG

Collapsible throat accessory bag. Reinforced mouth stays open for quick access. Made from durable cordura.

Great place to store your release!

Available in blue, black & Red.

16590...Blue

1659...Black

16591...Red

CABLE SLIDE

Slimmer & lighter!

Made from 100% Nylon, with all edges rounded to prevent cable wear.

Silent & durable.

1522...Cable Slide

KISSER BUTTON

Hunter style kisser button. Lightweight, durable and easy to install. Clips included.

1664...Kisser Button

"SLIM" DESIGN PEEP SIGHT!

Durable, High-Impact, Lightweight plastic with a Small Profile!

3/16" sight orifice. Allows maximum sight window for low light conditions. Comes with alignment tube.

1668...Hunter Peep (3/16")

1640...Hunter Peep - 50pk (peep only)

STRING WHISKERS

Easy to use! Simply tie on to bowstring. String whiskers are a proven method of dampening string noise and oscillations.

1051...1 Pair • 1635...Bulk(50 pair)

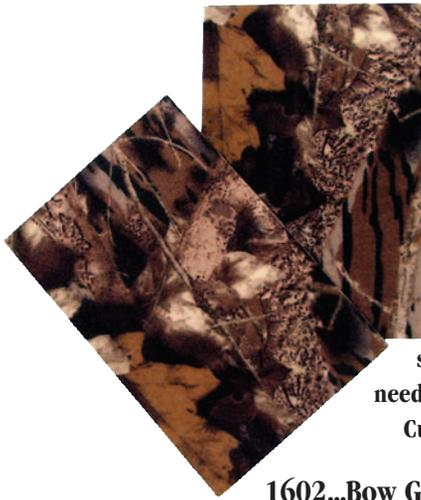

BOWHUNTERS GEAR-BELT

4 large zipper pockets to conveniently carry your gear!

A wide, heavy duty, quick-disconnect waist belt. Fully adjustable & padded for back support. Reinforced zippers for durability.

Embroidered Bohning logo. Constructed from a quiet, yet very durable camouflage material.

16950...Bowhunters Gear-Belt

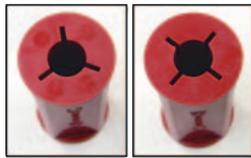

BOW GRIP & SIGHT WINDOW PAD

4"x6" mole-skin camo pads. Self-adhesive backing. Use on grip, sight window or any spot that needs camo, silencing or warmth. Cut to fit. 2 Pads per package. Mossy-Oak® Break-Up®. 1602...Bow Grip & Sight Window Pads

3-STRAP ARM GUARD

Made from durable Cordura. Adjustable, quick disconnect snaps. MossyOak®Break-Up®. 1689...3 Strap Armguard

BROADHEAD WRENCH

3 or 4 blade broadhead configurations. Easy grip construction. Molded from high-impact plastic. Protects fingers & hands while removing or installing broadheads. 1619...Broadhead Wrench

THE "Z" POINT

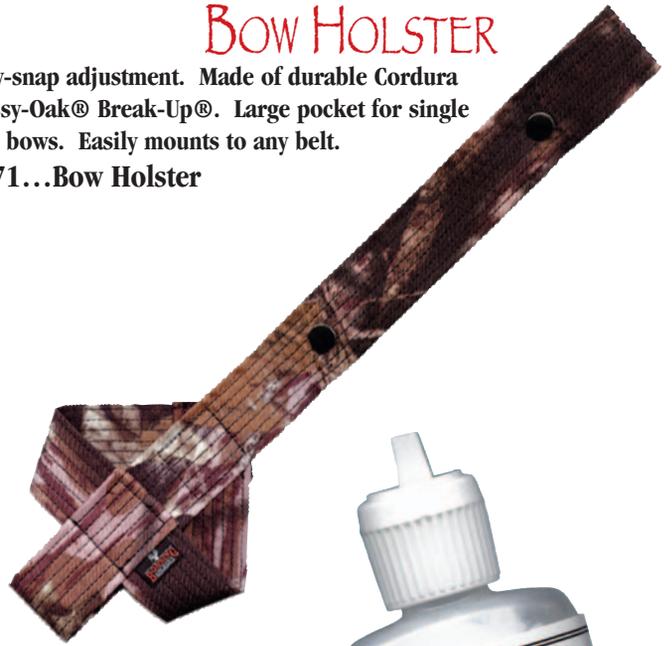

The taper design allows target to cool as arrow enters making shaft removal easy! Guaranteed to be within ±1 grain! The "Z" point comes in 2 diameters: 19/64" & 21/64". 3 weight choices: 85 grain, 100 grain & 125 grain. Available in 12pk & 100pk. *While Supplies Last!*

"Z" Points make pulling your arrows a breeze!

BOW HOLSTER

Easy-snap adjustment. Made of durable Cordura Mossy-Oak® Break-Up®. Large pocket for single cam bows. Easily mounts to any belt. 1671...Bow Holster

WIND-CHECK

A fine, odorless powder. Will detect even the slightest air currents. 250 applications. Environmentally safe. 1612...Wind-Check

SHRINK-TITE

It shrinks tight! A perfect fit every time. Gives arrow rest fingers a rubber skin that prevents arrow shaft noise as bow is drawn. 2 Per pkg.

BOHNING TOWER FLETCHING JIG

Save time & increase production!
 Accommodates "press fit" nock style shafts.
 4 Interchangeable Center Post Options:
 Standard Carbon (.240 id) • A-Nock (.201 id) • F-Nock (.164 id)
 & Crossbow Bolts
 4 Center Post Options Provide The Most Accurate Vane Placement!
 Assemble Your Tower Based On What Size Nock You Use!
 Places 3 vanes on a 2° offset, perfectly 120° apart!

Comes with 2 pressure rings allowing you to apply the perfect amount of pressure on different diameter shafts! Red ring for standard carbon & small diameter shafts, black ring for aluminum & larger diameter carbon arrow shafts!

1296... Tower Fletching Jig

Cannot be used with swaged end arrows

"If using any cyanoacrylate (quick-set) style glue, apply clamp release tape (Included) prior to use."

BOHNING PRO CLASS FLETCHING JIG

Perfect fletch every time! Quick-set magnetic clamp with larger grips for easier operation, easy off-set adjustment & accurate "snap" indexing. You don't have to spend a mint to get perfectly fletched arrows!

- 1348...Jig w/Straight Clamp • 1351...Straight Clamp
- 1349...Jig w/Right Wing Clamp • 1352...Right Wing Clamp
- 1350...Jig w/Left Wing Clamp • 1353...Left Wing Clamp

CLAMP
RELEASE
TAPE

Apply
tape to clamps.
Prevents adhesive build-up.

1319...Clamp Tape (1 pr)

ALCOHOL BURNER

Ideal for all hot melt adhesive applications. Use denatured alcohol.

- 1315...Alcohol Burner
- 1316...Extra Wick

FEATHER-DRI

Water Repellent Powder for feathers. The easiest feather treating system available. Simply shake feathers in powder and go. Colorless, odorless and will not affect feather adhesion.

1611...Feather-Dri

THREAD-TITE

Easy to apply. Keeps points or screws from backing out.

1650...Thread-Tite

SSR ARROW SHAFT SURFACE CLEANER

"Wide Mouth" bottle to accept multiple shafts. A high strength cleaner designed for today's new anodizing processes. Degreases & prepares aluminum & carbon shafts. Just add hot tap water to activate powder. Not for use on wood shafts.

- 1155...Pint (standard bottle)
- 1156...Quart (widemouth bottle)
- 1157...Gallon (standard bottle)
- 1158...1 pound (bagged)

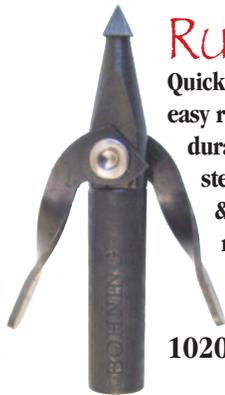

BOWFISHING KIT

All you need to get started in this fast paced, action packed sport. Great for beginners! Kit Includes:

- RETRIEVABLE LIGHTNING REEL,**
 - GLASS FISH ARROW WITH RUFFNECK FISH POINT & AMSSAFETY SLIDE™ SYSTEM •**
 - 50FT OF 80LB TEST LINE.**
- 1023...Bowfishing Kit**

RUFFNECK

Quick reverse barbs for easy removal. Extremely durable. Superior steel head for small & medium size rough fish.

1020...RuffNeck

RIVER FISH POINT

For rocky bottoms, low water & constant use. Great "all-around" fish point.

While Supplies Last.

1016...River Fish Point

AMSSAFETY SLIDE™

Eliminates arrow "snap-back". Safety Slide keeps line away from arrow rest. When tied properly, it also ensures near perfect arrow flight. Helps prevent shooting through fish.

1029...AMSSafety Slide™ (2 per pkg)

SOLID GLASS FISH ARROWS

White or Saturn Yellow Crown Dip! Shafts available with RuffNeck Fish Point & optional AMSSafety Slide™.

WITH POINT & AMS SAFETY SLIDE™

1002...White

10020...Hi-Vis Yellow

WITH POINT ONLY

1000...White

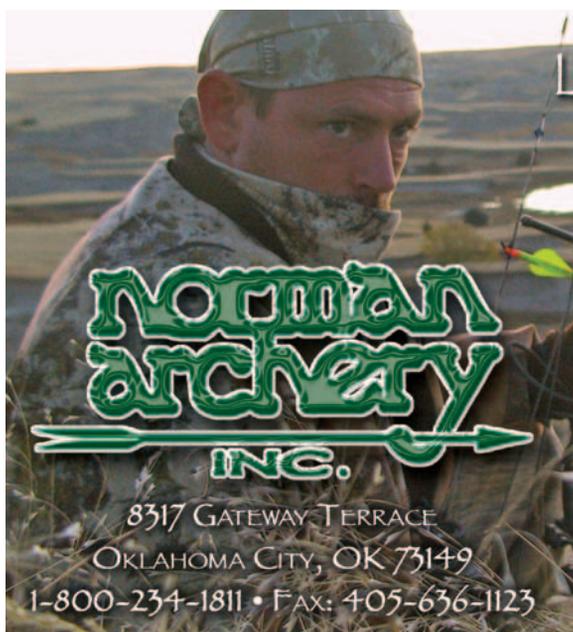

LIGHTNING REEL

RETRIEVABLE LINE FEATURE

Easy-to-use bowfishing reel. Line strips easily off reel. Simple to use "Reel In" feature. 50ft. of 80lb, braided nylon line & mounting kit included. Mounts into stabilizer tap.

1025...Reel w/line • 1024...Replacement Line

BOHNING "ALL IN ONE" SERVING KIT

EVERYTHING YOU NEED TO CENTER SERVE YOUR BOWSTRING!

Includes an instructional DVD that takes you step-by-step through the serving procedure. *Everything from string care to back-serving!*
Kit includes: Self-Serve Cable Spreader, String Separator, Serve-Tite serving tool with Polygrip serving thread and the Instructional DVD.
Bohning "All-In-One" Serving Kit...1295
DVD Only...1294

Includes a large feeder hole and a bushing to ease threading and prevent wear.

SERVE-TITE STRING SERVER

Adjustable tension & smooth thread flow. Excellent for quick, tight center servings. Now with larger top feeder hole!

- 16150...Serve-Tite (Tool only)
- 16240...Serve-Tite (PolyGrip.020)
- 16260...Serve-Tite(#62 /.21)

SELF-SERVE CABLE SPREADER

Makes serving your bowstring easy. Provides a large work area, keeping cables down and out of your way. Bowstring and cables are held securely in top and bottom slots.

Self-Serve Cable Spreader...1525

STRING SEPARATOR

Easily inserts between bowstring strands. A simple twist separates string. Bowstring fits into slot, providing a "user friendly" work area.
String Separator...1601

THE ONLY "CALIBRATEABLE" LASER ALIGNMENT TOOL AVAILABLE!

BOHNING ACCU-LASER

"Any misaligned bow component can cause significant arrow flight problems."

The Accu-Laser enables you to check the alignment of bow string, limbs, wheels, cams, sight, rest and arrowshaft. The Bohning Accu-Laser can be mounted in 3 different ways:

- 1) Inside the sight window, without disturbing your sight.
- 2) With a dovetail mounting bracket (for bows equipped with a dovetail mounted sight).
- 3) Mount directly to riser, using the tapped sight mounting holes.

Features include 360-degree laser rotation, spring-loaded return, and 3-axis adjustment of components. The Accu-Laser comes in a protective hard case for safe storage.

ACCU-LASER...1645

The Accu-Laser's precision can easily be verified and "re-calibrated" for years of continued use!

ArroWraps

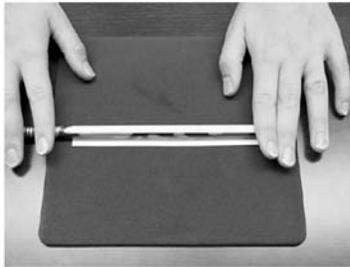

BOHNING 7 INCH ARROWWRAPS

Aluminum(1.25") available in Neon Yellow and White only. Carbon(1") available in all colors. Sized to minimize overlap. Helps you visually locate shaft. Allows you to easily fletch with any fletching adhesive. Each package contains 12 "ArroWraps".

SIMPLE & EASY "ROLL ON" APPLICATION!

WE SUGGEST YOU USE A SEMI-SOFT, FLAT SURFACE. A MOUSE PAD WORKS GREAT!

- Step 1)** Prep shaft surface using warm, soapy water. Let air dry.
- Step 2)** Remove ArroWrap backing. Place ArroWrap face down on semi-soft surface.
- Step 3)** Position shaft & align with edge of ArroWrap. Slide shaft toward ArroWrap until contact.
- Step 4)** Using steady down pressure, roll shaft. Now you're ready to fletch.

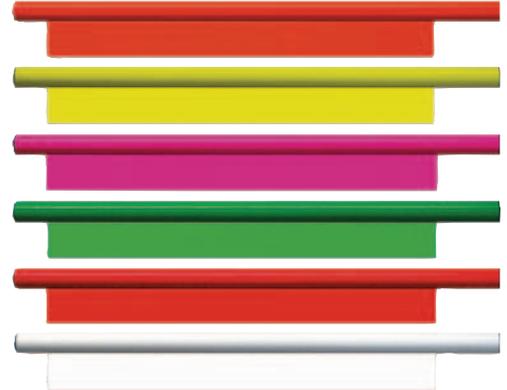

REMOVING ARROWWRAPS

- Opt 1:** Soak in hot tap water for approximately 5 minutes. Peel ArroWrap off.
- Opt 2:** Heat ArroWrap with hair dryer until soft. Peel ArroWrap off.
- Opt 3:** Scrape ArroWrap off using Bohning's "Stripper" tool.

Always clean & prep shaft after removing ArroWrap.

THE PERFECT COMPANION FOR BLAZER VANES!

As fletchings get shorter & shorter, so should your wrap! The Blazer Wrap is the perfect match for the Blazer™ broadhead vane! Dress up your hunting or target arrows for increased visibility and style. The BlazerWrap is only 4 inches long! Available in 6 solid colors and 10 designs.

4 widths available:

.875" - Small Diameter Carbon - 17/64 (all styles)

1" - Standard Carbon - 19/64 (all styles)

1.25" - Aluminum - 20/64 to 24/64 (WH, NY & WH Tiger)

1.5" - "Fat Carbon" shafts - 25/64 to 26/64 (Tiger wraps only)

THE "STRIPPER"!

SAFELY & EASILY STRIPS VANES, GLUE & WRAPS FROM ALL STYLES OF ARROW SHAFTS!

A pre-formed channel keeps your shaft properly positioned for the maximum cutting angle. The easy-grip handle makes stripping your shaft a breeze, and the contoured surgical steel blade provides years of use. Safe for use on all types of shafts.

Always clean shafts prior to fletching.

Blazer™

BROADHEAD VANE

The Blazer's capabilities will simply amaze you! Just shoot them and you will believe!

"Available in 11 vivid colors"

We recommend fletching the Blazer™ with a right-wing helical and a 2° offset.

Providing Big, Silly Grins to bowhunters everywhere!

THE BLAZER™ VANE: WHAT IT IS & WHY IT WORKS.

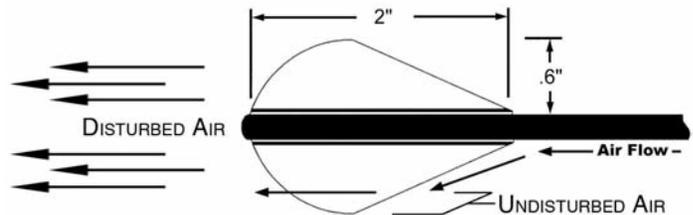

Bohning's revolutionary new, "Blazer™ Broadhead Vane" has changed the way archer's think about arrow guidance, especially with fixed-blade broadheads. Most of us have been led to believe that more is better when it comes to our vanes & feathers making our broadheads fly like our field points. The Blazer™ Vane disproves that theory by out performing 4 or 5 inch vanes or feathers and the Blazer™ is only 2 inches long!

BLAZER 36 PK - 10831
 BLAZER 100 PK - 10832
 BLAZER 1000 PK - 10833

HOW CAN THAT BE POSSIBLE?

Independent testing shows that while *some* spin is necessary for accurate flight, too much can cause your arrow to lose speed very rapidly. What is required is a guidance system that will take over and steer the arrow regardless of what the broadhead is doing. The Blazer Vane, with its unique design, begins steering & correcting immediately. The combination of the steep leading edge angle, and material stiffness, enables the air to flow over the vane in a manner that actually creates lift and leaves the tip of each vane inside undisturbed air. This is similar to the drafting principle used in auto racing. This airflow created by the precise leading edge angle, allows the tip of each vane to act like a rudder. This is very noticeable at longer distances because of the extremely flat trajectory Blazer™ Vanes provide. Just give the Blazer a try and you will BELIEVE!

2008 BOHNING PRO HUNTING STAFF

We are excited to announce the creation of the 2008 Bohning Pro Hunting Staff. Introducing 7 of the hardest working, most influential and professional hunters in the industry today! Great hunters each and every one, but their biggest trophies are their character and integrity.

We are very proud to be associated with such a fine group. Look for them on television, in print and on the seminar trail throughout 2008.
