

# 2013 PSE X-FORCE™ **OMEN™ MAX**

## THE FASTEST BOW EVER MADE IMPROVED FOR 2013!

We took the fastest, most efficient bow ever made - and made it better! Engineering has always been what sets PSE apart and it has never been more evident than in the Omen™ Max. This bow smokes the competition by shooting an unprecedented 366 fps, but the performance doesn't stop with speed. The PSE Omen™ Max also incorporates the Planar Flex Riser design and new Centerlock 2™ Pocket system to create one of the most consistent and accurate bows you'll ever shoot. This bow model is draw length specific and available in half-inch increments; select the draw length that best fits you.

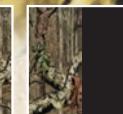

**IMPROVED  
2013**

"The fact that the Omen™ Max is the bow I personally choose to hunt with really says it all. Not only is it fast, it's also incredibly consistent and accurate. I wouldn't settle for anything less."

*Pete Shepley*  
PSE Founder

# 2013 PSE X-FORCE™ DREAM SEASON® DNA™

NEW PRODUCT  
2013

## SUPERIOR ENGINEERING IS IN OUR DNA™!

When the Drurys challenged the engineers at PSE to design a lightweight, high performance hunting bow, it seemed impossible. Stripping down a current model or creating a bow that was too expensive for most hunters was not an option. Instead, PSE's engineers set out to design a bow that was entirely different, all the way down to its DNA™. Introducing the Dream Season® DNA™ by PSE. Created by using a riser forged out of state-of-the-art, ultra-light and ultra-strong aluminum alloy, the new DNA™ weighs in at only 3.7 lbs. It features PSE's new Center Pull technology that places the arrow in the exact center of the bow for unparalleled tuneability and exceptional performance. The amazing new Core™ cam produces speeds of up to 352 fps, has 5 inches of draw length adjustment on the inner-cam, and is incredibly smooth. The DNA™ also features the new Centerlock 2™ Limb Pockets, FleX™ Cable Slide, Backstop 2™ and all the other features you expect from PSE. The new Dream Season® DNA™ is not only the best hunting bow we've ever made...It's the best hunting bow EVER made!

# 2013 PSE X-FORCE™ EVO™ MAX

IMPROVED  
2013

## HOW LONG DOES IT TAKE TO BUILD A LEGEND?

Since 2011, the EVO™ has established itself as the smoothest drawing high performance bow on the market. In 2013, we continue the EVO™-lution of the X-Force™ Revolution by improving it once again. The EVO™ MAX has the new Centerlock 2™ Limb Pockets, FleX™ Cable Slide and the Backstop 2™ to create one of the quietest, most consistent shooting platforms to ever hit the market. Coupled with PSE's Planar Flex Riser and revolutionary EVO™ cams; the new EVO™ MAX isn't just the perfect combination of speed and feel; it's a LEGENDARY HUNTING BOW!

# 2013 PSE X-FORCE™ VENDETTA™ DC

IMPROVED  
2013

## A BOW YOU HAVE TO SHOOT TO BELIEVE!

The Vendetta™ has developed a cult like following due to its ultra-smooth draw and amazing speed. Those fans will not be disappointed with the Vendetta™ DC. Designed with a 34" axle-to-axle length and a generous 7 inch brace height, this bow is fast and forgiving. Powered by the Drive™ cam, the Vendetta™ DC allows for 6-½ inches of draw length adjustment with the posilock inner-cam system that is exceptionally smooth to draw. But don't take our word for it, shoot the Vendetta™ DC against our competitors' bow and we think you'll be joining the PSE family.

# 2013 PSE X-FORCE™ REVENGE™

IMPROVED  
2013

## COMPACT & MEAN WITH X-FORCE™ POWER!

Only PSE can engineer a compact 29 5/8" axle-to-axle length bow without compromising speed and shootability. Inspired by the Vendetta™ XS, the Revenge™ features a riser, limb and cam package that is optimized to deliver the ultimate performance. So whether you are hunting from a treestand, ground blind, or simply want a lightweight bow for stalking trophies out west, the Revenge™ gives you a light and compact bow without the sacrifice.

**340**  
FEET PER SECOND

# 2013 PSE X-FORCE™ STILETTO™

IMPROVED  
2013

## MORE THAN JUST A PRETTY BOW...

The old advertising slogan "strong enough for a man, but made for a woman" has never been more accurate than in the Stiletto™. Only PSE, the inventors of the legendary X-Force™, can create a bow that delivers the maximum speed and performance that women need in a bow. We started with a light mass weight platform and engineered a bow designed to get maximum speed with incredible accuracy at shorter draw lengths and lighter poundage. The Stiletto™ is a compact 29 3/4" axle-to-axle design that uses the Mini EVO™ Cam with posi-lock inner-cam for 1/2" draw length adjustments without modules down to 23" draw lengths. The result is a women's bow that produces 320 fps at a 27 1/2" draw.

**320**  
FEET PER SECOND

Brace Height: ..... 6"

Shipped In: ..... 25"

*Julie Kreuter*  
Beyond the Hunt

"Like most women, I don't pull a lot of weight and have a shorter draw length, so I need all the performance I can get. The STILETTO™ from PSE gives me X-Force™ performance in a bow designed to meet the specific needs of female hunters."

## 2013 PSE STILETTO™ SPECIFICATIONS

# 2013 PSE X-FORCE™ **FREAK™ MAX**

IMPROVED  
**2013**

## A LONGDRAW BOW THAT'S FREAKING AMAZING!

We don't know if we named this bow for the incredible speed it produces or for the incredibly large people we designed it to fit. The new Freak™ Max features the new Centerlock 2™ Limb Pockets and the revolutionary EVO™ cams. This design gives archers incredible performance, unique geometry, and incredible feel and performance out to 33" draw lengths. So for those of you with the "wingspan" of an NBA basketball player, we have the perfect bow for you: The Freak™ Max!

**354**

# 2013 PSE X-FORCE™ **DOMINATOR™ MAX**

IMPROVED  
**2013**

## DON'T JUST WIN... DOMINATE!

At PSE, our goal was not only to engineer a better target bow, but to engineer a target bow that would make our shooters better. We did that by creating a bow that is the most accurate, most forgiving bow ever made. The new Dominator™ MAX still has all the features you would expect; super stable shoot through riser, symmetric Raptor™ grip and fourth generation X-Tech split limbs. But, now it features the all new Centerlock 2™ Limb Pockets, Flex™ Cable Slide and the Backstop 2™. The result is what we believe is the most accurate and forgiving bow ever made. Shoot the new Dominator™ MAX and see why more of the world's best target shooters are turning to PSE!

# 2013 PSE X-FORCE™ SUPRA™ MAX

NEW PRODUCT  
2013

## TOURNAMENT SHOOTERS ARE PERFECTIONISTS... AND SO ARE WE!

We know that tournament shooters are a little on the compulsive side. They're never quite satisfied and believe that even the best bows can be improved. Fortunately...so do we! That's why we redesigned one of the most popular tournament bows on the market. Introducing the Supra™ Max. Just like the original Supra™, it features a Planar Flex Riser, B.E.S.T. Raptor™ grip, and Mini EVO™ cams. But this year it has been radically improved and now features the new Centerlock 2™ Limb Pockets, FleX™ Cable Slide and Backstop 2™. The result is one of the finest target bows to ever hit the market!

# 2013 PSE X-FORCE™ PHENOM™

NEW PRODUCT  
2013

## THE NEW PHENOM™... ABSOLUTELY PHENOMENAL!

At PSE, we have always believed that money shouldn't keep you from enjoying the sport of archery. Introducing the Phenom™, a terrific money-saving alternative for serious target shooters. Its design is very forgiving with a 36 inch axle-to-axle length and 7 inch brace height. It features X-Technology, pivoting limb pockets, preloaded split limbs, the new Backstop™ 2, Planar Flex riser, and Raptor™ grip. The result...an incredibly accurate and forgiving target bow that won't break your budget.

*"Don't let the price fool you, the new Phenom™ is a serious target bow engineered for serious shooters! It's an amazingly accurate bow that delivers serious performance."*

# 2013 PSE ARCHERY TECHNOLOGY & CAMS

Torx® screws shown in silver for illustration purposes only

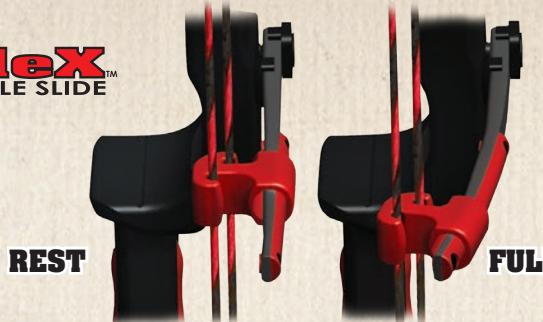

## NEW CENTERLOCK™ 2 LIMB POCKETS

- New design that is 16% lighter
- Triple Lock Design uses 3 locking and alignment features for a zero tolerance fit
- Secures and pulls the limbs to the center line of the bow
- Incorporates specially engineered glass reinforced nylon to support flexing limb for quiet operation
- 10 Turn adjustment of limb bolt

## NEW FLEX™ CABLE SLIDE

- Uses the same technology and manufacturing process as our PSE X Technology limbs for outstanding durability
- Reduces lateral load by 30% for decreased torque at full draw
- Adjustable offset allows cable clearance using different size arrows and fletchings

### Flex CABLE SLIDE

## FULL-DRAW

## NEW BACKSTOP™ 2

- Rotationally adjustable to align the center of the bumper with the string
- Micro-adjustable to customize impact distance
- Simplified length adjustment

## NEW VIBRACHECK™ LIMB DAMPER BAND SYSTEM

- Made of a specially formulated elastomer to absorb vibration
- Easy on and off attachment allows installation without disassembling the bow
- Can be used on individual split limbs, across both split limbs, or on solid limb bows
- Versatile design allows placement on other bow parts for further vibration reduction
- Available in multiple color options

## CAM HIGHLIGHTS 2013 PSE PRO SERIES BOWS

### UF HYBRID CAM (UF)

- Discrete cam profiles at all draw lengths for uncompromised performance
- 5" draw length options in  $\frac{1}{2}$ " increments
- Adjustable wall and valley to meet individual shooting style
- Cam profiles engineered to minimize limb and string vibrations

Bow Model: Omen™ Max

### CORE CAM (CC)

- Dynamically balanced and rotationally synchronized for optimal performance and tuning on Center Pull Bow Geometries
- 7075 aircraft grade aluminum for increased strength and decreased weight
- Improved energy storage with comfortable rollover is the core concept of this 11th generation hybrid
- 3rd generation posi-lock inner-cam

Bow Model: Dream Season® DNA™

### EVO HYBRID CAM (EV)

- 2nd generation posi-lock inner-cam
- 6" draw length adjustment in  $\frac{1}{2}$ " increments
- Smooth rollover with generous valley and solid wall
- Cam profiles engineered to minimize limb and string vibrations
- Nock travel optimized for tunability at all draw lengths

Bow Models: EVO™ Max, Freak™ Max, Hammer™

### DRIVE CAM (DC)

- Hybrid cam performance with the simplicity in adjustment and timing of a single-cam
- 2nd generation posi-lock inner-cam
- 6  $\frac{1}{2}$ " of draw length adjustment in  $\frac{1}{2}$ " increments
- Gentle rollover with generous valley and solid wall
- Cam profiles engineered to minimize limb and string vibrations
- Nock travel optimized for tuneability

Bow Models: Vendetta™, Revenge™, Drive™

### MINI EVO CAM (ME)

- A smaller version of the EVO cam for shorter power stroke
- 2nd generation posi-lock inner-cam
- 5  $\frac{1}{2}$ " of draw length adjustment in  $\frac{1}{2}$ " increments
- Smooth rollover with generous valley and solid wall
- Cam profiles engineered to minimize limb and string vibrations

Bow Models: Stiletto™, Dominator™ Max, Dominator 3D Max, Supra™ Max, Phenom™

# 2013 PSE MAIN LINE **PROPHECY™**

**NEW PRODUCT  
2013**

## PSE'S PROPHECY™: A VISION OF THINGS TO COME!!

The dictionary defines a prophecy as "a prediction of something to come". Well, the Prophecy™ from PSE is here and it's an incredible bow. It features fast parallel limbs, a Planar Flex riser, the new Backstop™ 2 and the fastest single-cam ever created. The new Prophecy™ is smooth, accurate and at 340 fps, the fastest single-cam ever made. This is exactly what hardcore bowhunters have been looking for!

"PSE is known for making the fastest hybrid cams on the market. The fact is, they also make the fastest single cam bow on the market...and it's called the Prophecy™!"

*Keith Beam*

2013**

## USHERING IN A NEW GENERATION OF PERFORMANCE

At PSE, we are dedicated to engineering the finest hunting bows on the market. This dedication has never been more evident than in the Bow Madness™ 3G. Designed in conjunction with Drury Outdoors, this bow features heavily preloaded past parallel split limbs, Planar Flex riser, Backstop™ 2, and the ultra-efficient Madness Pro™ single cam system for the perfect combination of feel and performance. Shoot the Bow Madness™ 3G for yourself and you'll be saying, "I shot it with my PSE!"

"Just wait until you shoot the Bow Madness™ 3G. Once again, PSE has proven that they make the fastest and smoothest single-cam bows on the market."

# 2013 PSE MAIN LINE **SINISTER™**

**NEW PRODUCT  
2013**

## THERE'S SOMETHING A LITTLE SINISTER™ ABOUT A BOW THIS GOOD!

Never before has there been a 28 inch axle-to-axle length, 7 1/4 inch brace height, single-cam bow that will shoot 327 fps. The new Sinister™ bow from PSE is very compact making it the perfect bow for hunting from a tree stand, ground blind or on those long hikes out West. But unlike most short axle-to-axle length bows, the new Sinister™ bow is very forgiving and amazingly fast. It is also easy on the pocket book.

# 2013 PSE MAIN LINE **RALLY™**

## THE MOST VERSATILE BOW EVER MADE!

Bowhunters come in all shapes and sizes...the Rally™ fits them all. Engineered for maximum adjustability, our revolutionary Opti Cam offers an incredible 14" of draw length adjustment and has the ability to dramatically decrease the draw weight through an easy cam adjustment. We also gave the Rally™ a limb and pocket design that allows the limb bolts to be adjusted 10 full turns! The result is the most adjustable bow ever offered by PSE. But it's not just about adjustability, the Rally™ is quick, smooth, accurate and priced to make it one of the best values in archery today!

# 2013 PSE MAIN LINE **CHAOS™ ONE**

**IMPROVED  
2013**

## ENGINEERED FOR SERIOUS, SMALLER FRAMED ARCHERS

Not all young hunters are the same. Some have more passion and drive for the sport. They take their hunting very seriously and we developed the Chaos™ One specifically for those hardcore young hunters. The Chaos™ One is not your typical "kids" bow. It uses highly preloaded 12" split limbs and our HP cam to deliver the ultimate in speed and performance. The Chaos™ One offers the best speed and performance in a youth bow today.

### 2013 PSE CHAOS™ ONE SPECIFICATIONS

# 2013 PSE MAIN LINE **CHAOS™ AD**

**IMPROVED  
2013**

## NEW AND IMPROVED FOR 2013!

Redesigned for 2013, the new Chaos™ AD features the new, highly adjustable Adapta™ cams and a riser designed to allow for 8 full turns on the limb bolt. The result is a perfect bow for growing archers. But, this is NOT your typical "kids" bow. The Chaos™ AD uses highly preloaded 12" split limbs just like our X-Force™ bows to deliver the ultimate in speed and performance.

# 2013 PSE MAIN LINE **MINI BURNER™**

## START HUNTERS RIGHT WITH THE MINI BURNER™

For the youngest of hunters that you want to start out right, the Mini Burner™ is a highly adjustable system that offers incredible quality and performance.

Featuring the new FC "Flexible Cam" twin-cam system that switches easily from constant peak weight to "Grow With You" draw length adjustments - all without a bow press. The Mini SF technology limb assembles like a solid limb with all the bend capabilities of a split limb. With the Mini Burner™, your young hunter enjoys the quality and reliability you expect from PSE in a bow that will fit them for years.

### THE MINI BURNER™ UPGRADE OPTION!

UPGRADE OPTION: You can upgrade to the next weight option for \$65.00 plus shipping, handling and service fees. Contact your local PSE Archery dealer for complete details!

## CAM HIGHLIGHTS 2013 PSE MAINLINE BOWS

### AMP CAM (AP)

- 2nd generation posi-loc inner cam
- 7075 aircraft grade aluminum for increased strength and decreased weight
- Larger string track for amplified performance with new bow geometries

Bow Models: Prophecy™, Sinister™

### MADNESS PRO CAM (MP)

- High performance, high efficiency single-cam
- 2nd Generation posi-loc inner cam

Bow Models: Bow Madness™ 3G, Brute™ X

### HIGH PERFORMANCE CAM (HP)

- Posi-lock inner-cam for precise draw settings
- Rotational inner-cam - no bowpress or inner-cam exchange to adjust draw length
- 6" of draw length adjustment in ½" increments

Bow Models: Stinger™ 3G, Chaos™ One

### OPTIMA CAM (OP)

- Highly adjustable 2-cam designed specifically for longer power stroke
- Adjustable draw weight system: "Fixed Peak Weight" buss cable setting OR "Grows With You" buss cable setting

Bow Model: Rally™

### ADAPTA CAM (AD)

- Adjustable draw weight system: "Fixed Peak Weight" buss cable setting OR "Grows With You" buss cable setting
- Improved cosmetics and dynamics
- Simple inner cam adjustment

Bow Model: Chaos™ AD

### FLEXIBLE CAM (FC)

- Highly adjustable 2-cam designed specifically for longer power stroke
- Adjustable draw weight system: "Fixed Peak Weight" buss cable setting OR "Grows With You" buss cable setting

Bow Models: Mini Burner™

### MZ CAM (MZ)

- Perfect for schools, clubs and families - no set draw length means it fits everyone
- No let-off, constant draw weight out to 30"
- Designed to fit any archer

Bow Model: Discovery™ 2

### HYBRID BOWFISHING CAM (HB)

- Posi-lock inner-cam for precise draw settings
- Bowfishing optimized inner-cam

Bow Model: Wave™
