# INDUSTRY CHOSEN

## INDESTRUCTIBLE BULLETPROOF PINS

Introduced in 2010 on our BulletProof sight, the new aluminum pin design has certainly lived up to its name. These pins proved to be so durable that it only made sense to incorporate this new BulletProof technology throughout our entire sight line. No matter how hard you hunt, how high you climb or how deep in the woods you venture you can be confident that your fibers will be protected from the elements and glowing during that moment of truth.

### SINGLE

HoggFather, Tommy and Boss. Small Guard only.

### 3-PIN

All sights except BulletProof. Large/Small Guard.

### 5-PIN

All sights except BulletProof. Large/Small Guard.

### 7-PIN

All sights except BulletProof. Large Guard only.

## TRUSTED AND PROVEN RESULTS FROM THE FIELD TO THE RANGE

Spot-Hogg Archery Products continues to create innovative products for archers across the world which equals success in the field or on the range. What began as an idea to create a better release aid in 1987 has turned into numerous ingenious products that make an impact on the archery world everyday. Spot-Hogg has come a long way from building our first product on a kitchen table to current products have are on literally thousands of bows, responsible for putting meat in the freezer, animals in the record books, and stacking trophies with hundreds of top finishes in the competitive world. With results like those, it's no wonder why the best hunters and target archers in the world choose Spot-Hogg.

# REACH OUT AND TOUCH SOMETHING

CAMERON HANES

Spot-Hogg allows me to focus solely on achieving my hunting goals... I win in the one on one battle with my quarry because I don't have to think, or worry, about whether or not my equipment will perform at the moment of truth.

I've filled all nine of my elk tags in the last three years, on tough hunts in the mountains of the west, by capitalizing on opportunity. In arrowing nine big bulls I haven't missed even once... this confidence allows me to get in to Beast Mode and when your in Beast Mode with a bow and Spot-Hogg equipment you're at the top of the food chain.

## TOMMY HOGG

Order code - TH

## BOSS HOGG

Order code - BH

## HOGG FATHER

Order code - HF

Finally you can enjoy rugged Spot-Hogg dependability in a freestyle sight. With our HRD technology (Hardened Rail Design) there is No slop, buzz, or babying this sight. With all the adjustability, and accuracy capabilities that Spot-Hogg is known for, this sight is one tight sight.

### FEATURES:

- Quick Release Knob
- Detachable Dovetail Bar
- Micro Adjustable 2nd & 3rd Axis
- Coarse Horizontal & Vertical Adjustments
- No Tool Micro Adjust Windage & Elevation
- Micro Adjustable Pointer
- HRD Technology, No Bushings, No Slop, No Buzz
- Spreads Out Sight Marks
- Large Easy to Use Yardage Knob
- Removable Rack For Traveling
- Precision Laser Engraved Sight Scale & Knobs
- Universal Scope Rod
- Solid 6061 Aluminum Construction
- Traveling Case Included
- Sight Scale Compatible with Archery Programs
- Available In Single Up Pin or a Rack of Pins

The Tommy Hogg's front control yardage adjustment gives great quiver clearance without sacrificing sight adjustability. Each is compatible in single pin, 3 or 5 pins in a small or large guard or a 7 pin available only in the large guard.

Rugged dependability in a movable hunting sight. The Boss Hogg's Rear controlled yardage adjustment, makes changing your yardage easier & faster, requiring less movement for stealthy adjustments in the field.

### FEATURES FOR BOTH:

- Rugged Hard Mount
- Micro Adjustable 2nd & 3rd Axis
- Coarse Horizontal & Vertical Adjustments
- No Tool Micro Adjust Windage & Elevation
- HRD Technology, No Bushings, No Slop, No Buzz
- Spreads Out Sight Marks
- Large Easy To Use Yardage Knob
- Precision Laser Engraved Sight Scale & Knobs
- Solid 6061 Aluminum Construction
- Sight Scale Compatible With Archery Programs
- Available In Single Up Pin or a Rack Of Pins

- Vertical Aiming Wire For Faster Alignment
- Solid 6061 Aluminum Construction
- Standard Weight 9.0 oz.
- Wrapped Weight 10.5oz.
- Accepts Sight Light
- Wrapped Fiber Optics
- Bullet Proof pins completely conceal and protect the fiber optic

## HUNTER

Order code - HH

If you like the adjustability of the Hogg-It but prefer to have your hunting sight hard mounted to your bow, then this is the sight for you. We've replaced the dovetail mounting system with a fixed plate hard mount.

#### FEATURES:

- 2ND & 3RD Axis Leveling
- No Clamp Gang Adjustment
- Precision Installed Bubble
- Individually Micro-Adjustable Pins
- Round Pin Guard With Alignment Ring
- Vertical Aiming Wire For Faster Alignment
- Solid 6061 Aluminum Construction
- Standard Weight 6.8 oz.
- Wrapped Weight 8.3 oz.
- Accepts Sight Light
- Wrapped Fiber Optics
- Bullet Proof pins completely conceal and protect the fiber optic

## REAL DEAL / S.D.P.

Order code - RD

The Real Deal is a ruggedly built sight that has the strongest dovetail available on the market. None of that finger-tight stuff. This sight is for serious shooters who want it all. Machined entirely out of 6061 air-craft aluminum. Easy to use knobs for micro-adjustable windage and elevation. Super heavy duty clamping screws ensure this sight will not come loose.

#### FEATURES:

- Heavy Duty Clamping Screws
- Micro-Adjust Knobs
- Precision Installed Bubble
- Round Pin Guard With Alignment Ring
- Vertical Aiming Wire For Fast Alignment
- Individually Micro-Adjustable Pins
- Solid 6061 Aluminum Construction
- Standard Weight 6.3 oz.
- Wrapped Weight 7.8 oz.
- Accepts Sight Light
- Wrapped Fiber Optics
- Bullet Proof pins completely conceal and protect the fiber optic

## RIGHT ON

Order code - RO

The basics are sometimes the best. Industrial strength dovetail system that easily slides, and clamps down with heavy duty screws. None of that finger tight stuff, just tighten it up and enjoy the security that it will be there when you need it.

#### FEATURES:

- Heavy Duty Clamping Screws
- Precision Installed Bubble
- Individually Micro-Adjustable Pins
- Round Pin Guard With Alignment Ring
- Vertical Aiming Wire For Faster Alignment
- Solid 6061 Aluminum Construction
- Standard Weight 5.8 oz.
- Wrapped Weight 7.3 oz.
- Accepts Sight Light
- Wrapped Fiber Optics
- Bullet Proof pins completely conceal and protect the fiber optic

# KICKING BEAR

## CHOSEN BY THE BEST IN THE WORLD

RAY L HOWELL

From a very young age I had dreams of finding out if Canada, Alaska, and Africa were real and wanted to see giant critters that I might have the opportunity to hunt with a bow. As I got older and was able to chase my dreams, I physically pushed myself to limits I didn't know I had and I found that I needed to have equipment that was super tough! There were many times when things went upside down on these hunts that I didn't expect, such being thrown by horses while riding in the mountains in the middle of nowhere. Once on a sheep hunt, I slipped off a trail and found myself sliding uncontrollably down a mountain side on my back (on what they call marble scree) to a near fatal ending; all the while clutching my bow. While hunting my favorite critters—whitetail deer, I watched in horror as my bow bounced off the ground after I accidentally dropped it out of a tree. But in all my adventures, I've found that it's persistence that pays off through good and bad: it always comes down to making one shot. Spot-Hogg sights are undoubtedly the toughest, most accurate sight, and the only one I will ever use on my bow.

## BULLETPROOF

Destroying this sight would be a challenge, and that's why we decided to call it Bulletproof™. When it comes to performance, it will stand up to the toughest conditions on the planet and deliver Bulletproof™ results, hands down! Created from the strongest aluminum available, the Bulletproof™ comes standard with newly designed light gathering system that illuminates eight inches of .019 fiber optic per pin.

### VIRTUALLY INDESTRUCTIBLE!

- Aluminum Bulletproof™ Pins
- Alignment Ring
- Over 4 ½" of vertical adjustment
- Left or right hand capability
- Built-in light gathering system
- Lifetime Warranty

Kicking Bear One-on-One is a nationwide mentoring program developed by world-renowned bow hunter Ray Howell. It encourages our sportsmen and women to get involved with today's youth by becoming mentors and passing on the tradition of the outdoors.

The Kicking Bear staff teams up with local clubs to organize camp outs, shed hunts, and many other events. The camp outs and shoots are a great way to introduce our youth to the outdoors and the sport of archery. This allows our organization to offer the Kicking Bear experience to under-privileged and at-risk youth at absolutely no charge! Kicking Bear is transformational for youth and mentors

alike. It gives them new insights into how to build healthy relationships and approach their lives in a new fashion. Spot-Hogg is proud to support Kicking Bear and a portion of every BulletProof sight is donated to help further the organization and change the lives of those who may of never had a chance to experience the outdoor opportunities we love.

# RELEASES

## WHIPPER SNAPPER

### FEATURES

- Ergonomically designed for maximum comfort
- Fastest trigger available on the market but completely safe
- Auto reload feature
- Settings won't change or wear just set it and forget it
- Designed for D-loop hookup
- Available in open jaw or closed jaw
- Available in 4-finger or 3-finger
- Wrist strap accessible

Unique, contoured lines intended to generate comfort during long shooting sessions and through every segment of the shot sequence. With its slender design the release seems almost non-existent in your hand during the draw and is easily positioned during anchor for repeatable and consistent shots. Built with both a proprietary materials and design the Whipper Snapper's firing mechanism provides an extremely crisp trigger break that is one of the fastest in the industry. With single screw adjustability for both trigger tension and travel the highly-adjustable Whipper Snapper offers something that is missing on most releases - the peace of mind of knowing that once you've fine-tuned the settings the release won't change or wear matter how much you shoot or how hard you hunt. The release's trigger barrel is adjustable to fit each individuals hand via two different positions on the trigger.

## WISEGUY MICRO ADJUSTABLE RELEASE

Increase your speed and accuracy when you strap on the Spot-Hogg Wiseguy™ wrist release. Built specifically for hardcore hunters who have asked for a wrist strap style release but with the same quality and accuracy as the target releases.

The Wiseguy™ incorporates the lightest trigger of any hunting release ever created and with specific features such as micro-adjustable length, fail safe trigger with no trigger travel, rigid body for comfort and speed, and a quick loading jaw that creates a torque free release when using a D-Loop. The Wiseguy™ is destined to send your old release to the bow box for an extended time out.

### FEATURES

- Light, adjustable trigger with zero travel
- Self reloading hook
- Forward trigger design for maximum draw length and speed
- Adjustable length
- Open jaw for ultra-fast D-Loop hook up\*\*
- \*\*D-loop required for use

### OPTIONS

#### Wiseguy Rigid

- Fold back design
- Angled into the hand for convenient loading
- Velcro wrist strap or soft leather buckle

#### Wiseguy Nylon

- Large range of length adjustment
- Nylon connection allows head to rotate
- Soft leather buckle strap only

## FRIDAY NIGHT DELIGHT

Designed with the hunter in mind this release has all the great features of the Saturday Night Special, with an open jaw to aid in fast and easy release attachment during the moment of truth. Now hunters can take advantage of the accuracy of a hand held release aid, without the hassle of trying use their target release in the field.

### FEATURES

- Smooth Contoured Handle
- Open face for quick D-loop attach

### OPTIONS

- #FND Color: Grey Only
- \*\*D-loop required for use

## SATURDAY NIGHT SPECIAL

The hottest release on the market! The great thing about this release, is that you do not have to sacrifice safety for a fast trigger. Our unique trigger design lets you set it as hot as you want with out any fear of a misfire. We've kept the neck short on this release for all you speed guys and draw length challenged individuals. This will allow you to stretch your draw length out with out having to modify your form. The best feature of this design, is the trigger setting does not change. Once set, it stays set until you change it.

### FEATURES

- Smooth Contoured Handle
- Fully Captures the D-loop
- Micro Adjustable Trigger

### OPTIONS

- #SNS Color: Black Only
- \*\*D-loop required for use

## CHOSEN BY THE BEST IN THE WORLD

REO WILDE

I wouldn't want to give anyone an edge on me, that is why I only trust Spot-Hogg arrow rests. Spot-Hogg arrow rests give me more versatility and settings than any other on the market. With it's smooth micro-adjust, I can easily find the bows sweet spot which helps me to perform, placing me on top the podium time and time again. To top it off, I never worry about my Spot-Hogg arrow rests failing, as it is built rock solid.

**QUALITY:** Cosmetically clean & mechanically sound.

**100% LIFETIME GUARANTEE:** Milled from 6061 aircraft aluminum. 100% lifetime guarantee. This warranty protects against all manufactures defects. When you buy a Spot-Hogg arrow rest you are investing in the last arrow rest you will ever need.

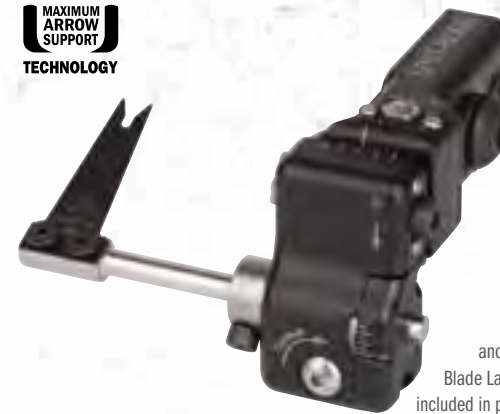

**MAXIMUM ARROW SUPPORT:** Your rest needs to support the arrow for 66% to 75% of the length of the arrow.

**HORIZONTAL & VERTICAL MICRO ADJUST:** All Models

**DURABILITY:** All of our arrow rests offer Spot-Hogg's time tested bullet proof design.

## THE EDGE

It's always been a wonder to us why people put so little emphasis on rest micro adjustability, when the arrow rest is one of the most critical component to accurate shooting.

To start, the Edge features a no-clamp vertical and horizontal micro-adjust meaning easy adjustment with a single screw. Fine-tuning an arrow rest to perfection has never been easier. Maybe one of the most amazing features is the micro-adjustable blade angle, a simple turn of a click screw and you can click your blade angle to the ultimate position. To further aid accuracy and repeatability The Edge is able to be locked down to guarantee zero bearing or bushing play. To ensure repeatability it also offers a self-centering blade, designed to make blade replacement easy and exact. Each piece of the Edge is designed to promote the highest level of accuracy and ensure that your arrows will find spot after spot with scary consistency **Want a step upon your competition? Get the Edge.**

**OPTIONS:** EDG = Edge RH = Right Hand LH = Left Hand

- No-clamp Vertical Micro Adjust
- No-clamp Horizontal Micro Adjust
- Micro adjustable blade angle with clicks
- Lockdown launcher with no bearing or bushing play
- Self centering blade design so blade replacement is easy and repeats every time

## INFINITY

The Infinity Is The "Top of The Line" micro-adjustable arrow rest. With its no clamping micro-adjustable windage and elevation, ease of use and precision adjustments, this rest is in a class all by itself. The Infinity's accuracy, durability, and dependability have made it the top choice for serious archers worldwide.

**OPTIONS:** INF = Infinity RH = Right Hand LH = Left Hand

- Spring loaded launcher with adjustable tension
- Multiple launcher options included
- Vertical and horizontal "No Clamp" micro adjust

## PREMIER

When the Premier debuted it revolutionized the arrow rest market with micro-adjustable windage and elevation. Adjustable spring tension and infinite launcher angle adjustability, the Premier offers everything an archer could ask for. Now almost two decades later, this rest has withstood the test of time and is still the number one choice of target archers and hunters alike.

**OPTIONS:** PRE = Premier RH = Right Hand LH = Left Hand

- Spring loaded launcher with adjustable tension
- Multiple launcher options included
- Vertical and horizontal "No Clamp" micro adjust

CHOSEN BY  
THE BEST IN  
THE WORLD

LEE & TIFFANY LAKOSKY

Tiffany and I spend nearly 200 days a year hunting; everything from sheep in the mountains of BC, to elk in the Rockies, to whitetails in the midwest and everything in between. With that many days in the field, our equipment takes a real beating. We need gear that is tough and dependable and when it comes to sights, above all else, accurate!! That's why Tiffany and I shoot Spot-Hogg. Simply the best.

## 28 NFAA FIELD ROUND TARGETS

# SAFARI TARGET

Quickly becoming a West Coast standard, Safari shoots have a little something for everybody. Using real life images, combined with NFAA standard scoring rings and distances, these targets provide an enjoyable experience for both hunters and target archers alike.

Each Spot-Hogg Safari target is printed on a 36"x 40" piece of weather resistant material\* that holds up exceptionally well to a large number of shots.

*Set up an entire course for a fraction of the cost of a 3-D Shoot*

*Standard scoring rings in line with NFAA sizes for specified distances*

*Clear and consistent scoring rings speed up scoring and minimize debate over score*

*No need to repair targets, affordability makes these targets disposable and easy to replace once shot out*

*Targets come with vivid orange aiming dots, eliminating the need to paint.*

*Minimal storage space required*

*28 different animals designed to cover a complete NFAA field round*

*Targets can be sold individually or in sets. Contact us at 888-302-7768 for pricing.*

\*Not UV coated - targets fade if not stored properly.

## TAGGED OUT

Instantly range your game at full draw. Greater offset Ranging Bracket and angled top and bottom bars greatly increase visibility in sight window. Mount in front or behind fiber wrap. Solid Aluminum, Glow-in-the-Dark powder coat for low light conditions and Superior durability.

## KNOB

A great accessory for the Hogg-It Sight. Use it for a quick release when removing your sight from the mount.

## DROP MOUNT

Specially designed bracket for those that have trouble getting their sight low enough. Due to bow variations, you may find it necessary to lower your entire sight. Lower or raise sight 1/2".

## HOOTER SHOOTER

FEATURES:

- Tune arrows to hit the same hole
- Advanced bow tuning
- Discern good & bad products

## SIGHT LIGHT

Brightness will gradually increase throughout the full rotation of the knob.

**Rheostat Sight Light - SL**

## LASER ALIGNER

The Laser Aligner instantly shows the amount of tilt in the cams & wheels of a compound bow. Constructed of durable machined casing to last a lifetime. The unique grooved design allows the laser to project a parallel light beam from any flat surface it is placed on.

**WARNING:**

*Laser light, avoid direct eye exposure!*

## HOGG WRAP

Update your old sight and get the most up to date Spot-Hogg sight without buying a whole new one! The demand for a brighter fiber optic has been answered with the brightest and most durable wrapped fiber optic system available. With the Hogg Wrap you can increase pin protection, have wrapped fiber optics, install a sight light, and use a lens all at the same time. The Hogg Wrap really is the perfect accessory for your sight.

Sight not included

## LENSES

Magnification lenses are available in 2x, 4x, or 6x for the small pin guard, and 2x, or 4x for the large pin guard. No additional equipment is needed to install on wrapped multiple pin sights. Compatible with non-wrapped sights and single pin sights with an additional lens adapter (sold separately). Please specify guard size when ordering. Any sight with Bullet Proof pins requires a C-adapter - included at no additional charge.
