Welcome to Mathews®...  
**A global company with a global perspective.**

Mathews® is not just Solocam® and it's not just a group of people manufacturing bows in Sparta, Wisconsin... Mathews® is a testament to the **honor** in fair chase hunting and to the world-wide reach of **American innovation.**

It's not a place on a map, it's **a state of mind** shared by every person who shoots our bow. Welcome to Mathews®, where everything is about the experience and **anything is possible.**

CREED X5

# The best experiences are the ones you earn.

When you put this much effort into your hunt, you deserve  
the best-in-class performance of a Creed<sup>®</sup> XS.<sup>™</sup>

**CREED XS**

## Advanced Simplicity.

The smooth, efficient power provided by our Simplex Cam™ System proves that less really is more.

It's the simplest cam we've ever produced, yet yields more efficiency than any other. To experience "efficiency" shoot the 2014 Creed XS™.

AVS<sup>®</sup>  
**DYAD**  
CAMS™

**CHILL R**

**Alive with power,  
yet dead in the hand.**

The dynamic AVS<sup>®</sup> DYAD<sup>™</sup> Cam System is the foundation for the smooth, powerful speed of the 2014 Chill R<sup>®</sup>. This patented dual cam technology allows for added energy storage. It also features Perimeter Weights that reduce post-shot recoil and noise. Finally, you can shoot a "speed bow" that's also smooth and quiet.

Deep in the woods, the  
Monster® awaits it's prey.

Big game is no match for the knock-down power of the new Chill R™.

# CHILL R

Speed so smooth it will send shivers down your spine.

The 2014 Monster® Chill R™ draws with ease, yet packs a powerful punch and shoots virtually dead in hand. It's everything you've come to expect from the dynamic McPherson Series®, and is now available in four new custom color options.

The Harmonic Stabilizer® and Harmonic Stabilizer® Lite reduces post-release vibration by up to 75%, and the Harmonic Stabilizer® Lite is nearly 70% lighter than the original.

### Dead End® String Stop

The Mathews® Dead End® drastically reduces residual vibration and virtually eliminates post-release noise. Fits most bows currently equipped with a rear stabilizer bushing and installs in minutes.

### Custom Damping Accessories®

Personalize your Mathews® with Custom Damping Accessories®. Available in 10 different colors, these rubber accessories not only absorb vibration and reduce noise, they also look amazing on your bow. If that's not enough, put on a couple Monkey Tails™, the do-it-yourself string and cable damping system. They install in seconds and no bow press needed.

## Mathews Genuine™ Ultra-Rest®

### Focus® Grip

The Mathews® Focus® Grip's patent pending "Focus Ridge" optimizes hand placement, and minimizes hand torque by keeping pressure in the center of the grip. Available in 9 custom colors.

### Arrow Web® T-Series Quiver

The T-Series ArrowWeb® Quiver is the quick and easy way to attach and detach your quiver. The foam insert accommodates 5 fixed blade or expandable broadheads. The ArrowWeb® easily converts to right or left-handed set-ups, and adjusts for long arrows. Available in Black, Tactical and Lost Camo® finishes.

### Arrow Web® FP-Series Quiver

FP-Series ArrowWeb® Two-Piece Quivers come in both 5 and 7-arrow configurations, for right or left handed shooters and easily mounts in minutes. The quiver hood holds a foam insert that accommodates both fixed blade and expandable broadheads. Available in Black and Lost Camo® finishes.

## Zebra® Bowstrings & Cables.

### Zebra® Trophy™

After nearly 20 years of building strings and cables, Zebra® is proud to announce Zebra Trophy, the latest in bowstring technology. Years of research, and development have been pulled together to create the most advanced line of bowstrings and cables in the world. Our proprietary Trophy Process, paired with an ultra premium blend of BCY material, have produced a new string and cable with all the qualities today's archer's demand.

**Zebra® Trophy truly is the professional's choice.**

### Zebra® Hybrid™

Zebra® Hybrid® is an advanced blend of BCY® material designed and manufactured to create a top of the line, hassle free bowstring and cable that can be customized to fit any one cam, two-cam, crossbow, or traditional bow you may have.

## Zebra® High Performance Bowstring Wax

Increase the longevity and performance of your premium bowstring by applying Zebra® performance wax to your strings and cables regularly. Zebra® High Performance Wax is a unique formula designed to condition your strings and cables, which will help maximize the performance and life of your strings and cables.

### Bowstring Servings

Whether you choose a custom color or stay with original black, Zebra® Trophy and Hybrid® Bowstring servings are hand wrapped with the highest quality materials available.

**GENESIS™ ORIGINAL**

Zero Let-Off Technology never needs adjustment.

Up to 30" draw length fits virtually everyone.

Draw weights adjust from 10 to 20 lbs., easy for all ages to shoot.

Accurate and durable for a lifetime of fun!

35-1/2" axle-to-axle with a 7-5/8" brace height.

**GENESIS™ PRO**

Zero Let-Off Technology never needs adjustment.

Exclusive to Genesis™ Pro, a "draw stop" cam that adjusts draw lengths up to 30".

Draw weights adjust from 15 to 25 lbs., which means faster arrow speeds

35-1/2" axle-to-axle with a 7-5/8" brace height.

Helping kids draw out their inner hero.

**Genesis®, the official bow of the National Archery in the Schools Program.**

Through our exclusive partnership with NASP, Genesis™ bows are helping millions of young archers enhance confidence, focus and discipline.

- **NASP® is still growing!**  
Over 10 million students from over 10,000 schools in 47 states and 6 countries have participated in NASP®.
- **Everybody can shoot.**  
Success is not based on physical ability, but on individual skill.
- **Archery engages students.**  
Regardless of age size or gender, and helps improve academic performance, attendance and behavior.

The Genesis bow, available in a wide range of colors.

**Over 10 million kids have shot a Genesis.™**

The revolutionary Genesis™ bow is giving kids all over the world a new sense of adventure, and with revolutionary features like, Zero Let-Off Technology,™ Genesis™ bows offer advantages that make them a perfect choice for archers of any age or size. Because the draw length is always "right," beginning archers

can't develop bad habits caused by an improperly fitted bow, and since there isn't any specific draw length, kids can't outgrow it. Built to last, Genesis™ bows are manufactured with a tough, aluminum riser and durable composite limbs to provide a lifetime of adventure... *Join the Revolution!*

**GENESIS™ CARBON**

Same bow as Original, but now available in a Carbon Fiber finish.

Zero Let-Off technology never needs adjustment

Up to 30" draw length fits virtually everyone.

Draw weights adjust from 10 to 20 lbs.,

35 1/2" axle-to-axle with a 7-5/8" brace height.

**MINI GENESIS™**

Zero Let-Off Technology never needs adjustment.

Smaller, lighter configuration 6" shorter than the Original,

Perfect for first timers.

Lighter draw weights from 6 to 12 lbs., easier to pull for younger archers.

29-1/2" axle-to-axle with a 6-1/8" brace height.

# The Winningest Brand

The closest thing to real life hunting scenarios is 3D archery

For the 16th straight year, Mathews® shooters won more professional (ASA and IBO) 3D tournaments than all other bow brands combined. Once again, it wasn't even close!

Talk is Cheap... Here are the facts.

### A winning record

Team Mathews has had a winning percentage of 74.2% in 3D archery over the last 10 years.

### Buckmasters Tournament

The Buckmaster's Tournament takes real life hunting conditions to the next level with moving and changing targets, challenging shooters with split second decisions where accuracy and forgiveness are essential to win. The winners may have changed, but the equipment has remained the same.

**15 of the last 18 winners shoot Mathews®**
