AND THEN, WHEN YOU LEAST EXPECT IT, NEEDS TO PERFORM IN THE CLUTCH. THAT'S WHY THE HIGH-PERFORMANCE ACCESSORIES WE DESIGN AND ENGINEER ARE BUILT TO WITHSTAND EVERY PUNISHING TEST THEY WILL FACE IN THE WILD. WE KNOW WHO YOU ARE AND WE ARE DEDICATED TO YOUR SUCCESS. THAT'S THE FUSE WAY. OUR WAY. SEE WHAT WE HAVE IN STORE FOR YOUR 2015 SEASON. HUNT WITH CONFIDENCE. HUNT WITH PURPOSE. HUNT WITH FUSE.

**RELIVE IT ALL IN HIGH-DEF GLORY.**

## EVERY HEART-POUNING MOMENT OF YOUR HUNT ON THE BIG SCREEN.

Capture all your favorite hunting memories with the new FUSE Playback and watch them again and again on your computer, tablet, phone or big screen. With the unobscured camera location at the end of the stabilizer, Playback captures all the intensity of your hunt in full HD 1080p. Equipped with an ultra high-quality lens and 12 megapixel lowlight sensor, the Playback gives you a picture-perfect video, providing a view similar to what you see with the human eye. Unlike a fisheye lens, the Playback uses patented Tactacam™ Technology which makes a 20 yard shot look and feel like a 20 yard shot. Don't miss capturing another epic hunt, get the FUSE Playback and record, share and relive every heart-pounding bowhunting moment.

FUSE Playback easily mounts to any stabilizer mounting hole on your bow, not only performing camera duty, but stabilizer duty as well. Dual benefit exclusive to this patented design.

# PLAYBACK™

RECORD. SHARE. RELIVE.

**NEW**»

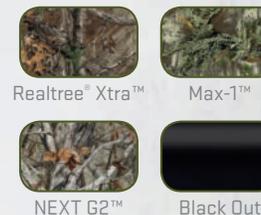

Playback makes it easy to download your HD movies to your computer, tablet or phone for the ultimate sharing experience.

## SHOCK ROD TECHNOLOGY: SMALL DAMPERS MAKING A HUGE DIFFERENCE.

Our patented Shock Rods are more than just another piece of rubber. They were designed and built with one purpose – to kill noise and vibration, making your bow quieter. Constructed of durable but stretchy elastomer, Shock Rods are held in place at the center of the rod, which allows the ends to move freely and soak up vibration caused by the energy of today's high performance bows. The result is a smooth and quiet shot.

Custom colored Shock Rods let you customize your bow from top to bottom. See inside back cover for details.

## STEALTH BAND TECHNOLOGY: CRUSHING NOISE AND VIBRATION NEVER LOOKED SO GOOD.

While most accessories are known for making your bow louder, FUSE was born from the idea of designing accessories that can help make your bow quieter. Enter the latest weapon in the fight against bow noise and vibration – the Stealth Band. Constructed from durable and stretchy elastomer that works in all temperatures and weather conditions, Stealth Bands will help kill noise and vibration from any bow and in any hunting situation. Customization is easy with nine colors of bands available.

Eight custom colored Stealth Bands let you have your bow your way. (Accessories come standard with Black.)

**A TROPHY CASE FOR YOUR ARROWS.**

## WHY DO JUST ONE THING WELL WHEN YOU CAN DO THREE?

Vector quivers not only keep an incredibly silent hold of your arrows, they also minimize vibration and have the most reliable, low-profile and silent Quick-Detach System in archery. After all, what good is a removable system if it's always loose, rattles or makes noise? At FUSE, we want our bow completely silent. We designed the Quick-Detach System to lock down solid and never make a peep. The light-weight, durable and compact dovetail design is a rock-solid mounting system that is still quick and easy to get on and off and fits tight to your bow - making it convenient, worry free and quiet.

The FUSE Quick-Detach System makes quiver removal in the field or tree stand simple and quiet. And the convenient tree stand hanging loop allows you to hang it easily within reach.

### VECTOR™

- » ADVANCED, LIGHTWEIGHT, LOW-RESONANCE COMPOSITE FRAME
- » ALL-CLIMATE, MULTI-DIAMETER GRIPPER SYSTEM
- » HARD-LOCKING, DOVETAIL QUICK-DETACH MOUNTING SYSTEM
- » ULTRA-LIGHT, SUPER-STRONG CONSTRUCTION
- » AVAILABLE IN 4 & 6 ARROW CONFIGURATIONS

### VECTOR XT™

- » STEALTH BAND TECHNOLOGY FOR SUPREME SOUND AND VIBRATION SUPPRESSION
- » HIGH-PRECISION, MACHINED ALUMINUM, HYPER-LIGHT FRAME
- » HARD LOCKING, DOVETAIL QUICK-DETACH MOUNTING SYSTEM
- » ULTRA-LIGHT, SUPER-STRONG CONSTRUCTION
- » AVAILABLE IN 4 & 6 ARROW CONFIGURATIONS

### VECTOR XT STREAMLINE™

- » ULTRA-SLEEK, LOW-PROFILE DESIGN SITS TIGHT TO THE BOW FOR IMPROVED BALANCE
- » STEALTH BAND TECHNOLOGY KILLS NOISE AND VIBRATION
- » LONG SPAN DESIGN FOR IMPROVED ARROW SECURITY
- » HARD LOCKING, DOVETAIL QUICK-DETACH MOUNTING SYSTEM
- » AVAILABLE IN 4 & 6 ARROW CONFIGURATIONS

FUSE Vector quivers are compatible with multiple arrow diameters, including aluminum, standard carbon, and small diameter arrows such as Easton® Injections™

### CONVENIENT TREE STAND HANGING LOOP

Vector XT in NEXT G2

Vector XT Streamline in Realtree Xtra

Customizing your bow couldn't be easier. Choose from 8 colors of Stealth Bands to get the look that's all you. (Black comes standard.)

### COLOR OPTIONS:

Realtree® Xtra™ Max-1™ NEXT G2™ Black Out

All FUSE Quivers available in Black Out, Realtree Xtra, Realtree Max-1 and Next G2 - a great multi-purpose camo.

### FUSE ULTRA REST™

- » SECURES ARROW AT LOADED POSITION
- » PRECISELY DROPS AWAY AT LAUNCH
- » EASY ADJUSTABILITY FOR A PERFECT TUNE
- » AVAILABLE IN BLACK OR REALTREE CAMO

At full draw, Velocity Drop-Away Technology™ knows to drop-away ONLY when the bow is fired, not when letting down. If the bow is let down slowly, the launcher returns to the capture position, keeping your arrow fully contained.

### FUSE PRO BLADE™ TARGET REST

- » SIMPLE, PRECISE, MICRO ADJUSTMENT FOR EASY TUNING AND ACCURACY
- » HEAVY DUTY LOCKDOWN SCREWS FOR SOLID, WORRY FREE PERFORMANCE
- » COMES STANDARD WITH .010 LAUNCHER BLADE. (.008 AND .012 SOLD SEPARATELY)
- » ARROW REST OF CHOICE FOR TOP SHOOTERS AROUND THE WORLD

**NEW** »

### FUSE WHISKER BISCUIT®

- » SIMPLE, YET EFFECTIVE
- » SHOCK ROD TECHNOLOGY FOR ULTIMATE STEALTH
- » VERTICAL AND HORIZONTAL ADJUSTMENT FOR EASY AND PRECISE TUNING
- » ROCK SOLID MOUNTING BRACKET FOR WORRY-FREE PERFORMANCE ON THE TOUGHEST HUNTS

This is where it all started. Shock Rod Technology has revolutionized the archery industry by incorporating small dampers in our accessories, virtually eliminating unwanted shock and vibration.

**WE DID THE WORK FOR YOU. GRAB A PACKAGE AND FILL YOUR TAG.**

Spend more time hunting and less time shopping. Fuse eliminates worry of choosing the right accessories for your bow by providing everything you need in one single package.
