HANSEN

mini-MAG

Remember that other 29mm scope that offered 16 pin positions, front or rear lens placement and optional sunshades? We don't either. The Mini-Mag is in a class all of its own.

HOUSER

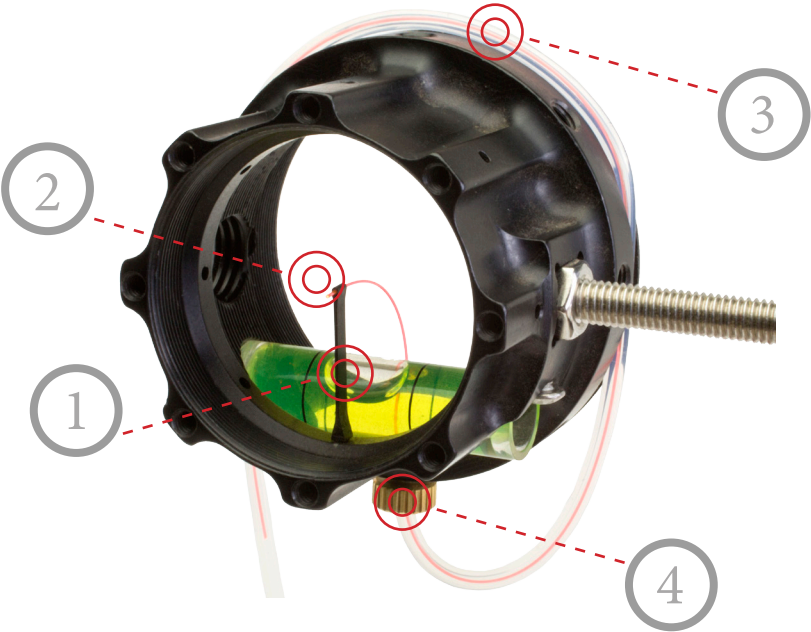

SCOPE LENSES

The best scopes in the world deserve superior clarity, plain and simple. That's why we offer 7 (2X-8X) different magnification options in both Feather Vision and Zeiss lenses for all of our scopes. Our lenses come fully encased in threaded, protective housings to go from the shelf to your bow in seconds. New for 2016 is the addition of 4X Doc's Choice Lenses from Clear Target for the 29mm Shrewd scopes.

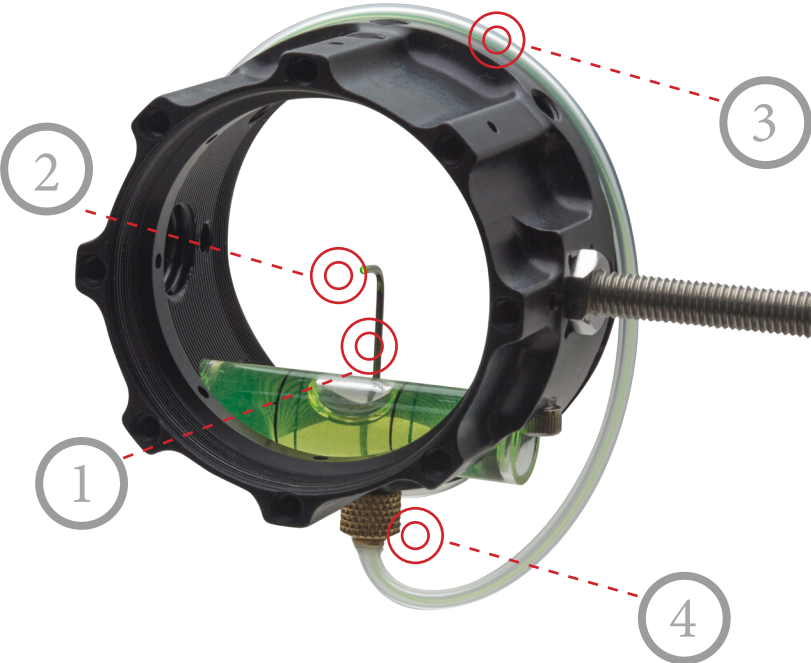

- 1 | THREADED TO ALLOW FOR SUNSHADES
- 2 | LASER ENGRAVED PROTECTIVE LENS HOUSING
- 3 | THREADED TO SCREW DIRECTLY INTO SHREWD SCOPES FOR PRECISE OPTICAL CENTERING

TAK KIT

- 1 | UTILIZES STOCK RAZOR PIN AVAILABLE IN .010", .015" & .019"
- 2 | PLASTIC TUBING FOR FIBER PROTECTION
- 3 | 8/32 KNURLED NUT FOR SECURE PLACEMENT
- 4 |

INTEGRATED PIN

- 1 | REPLACES STOCK RAZOR PIN AVAILABLE IN .010", .015" & .019"
- 2 | PLASTIC TUBING FOR FIBER PROTECTION
- 3 | 8/32 KNURLED NUT FOR SECURE PLACEMENT
- 4 |

SCOPE PINS

We don't believe in too many options. Our current lineup of 9 different razor pins offers something for every shooter and for added adjustability our scopes work seamlessly with both the TAK kit and Integrated Pins. Razor pins are available in .010", .015", .019", .029", .039", .060", .120", .160" and .196".

SUNSHADES

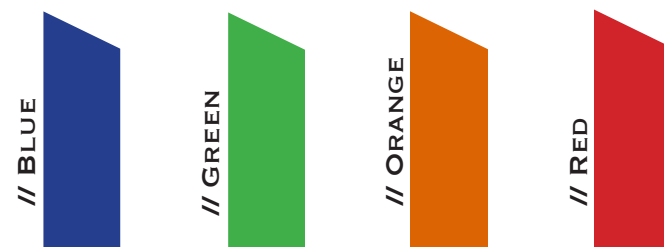

Is there such a thing as too many sunshades? We don't think so. With 19 different sunshades and colored decals to match there is an option for every shooter.

- 1 LASER ENGRAVED RING
- 2 TEXTURIZED TO REDUCE GLARE
- 3 THREADED TO SCREW DIRECTLY INTO SHREWD SCOPES OR LENSES

PREMIER STABILIZER SERIES

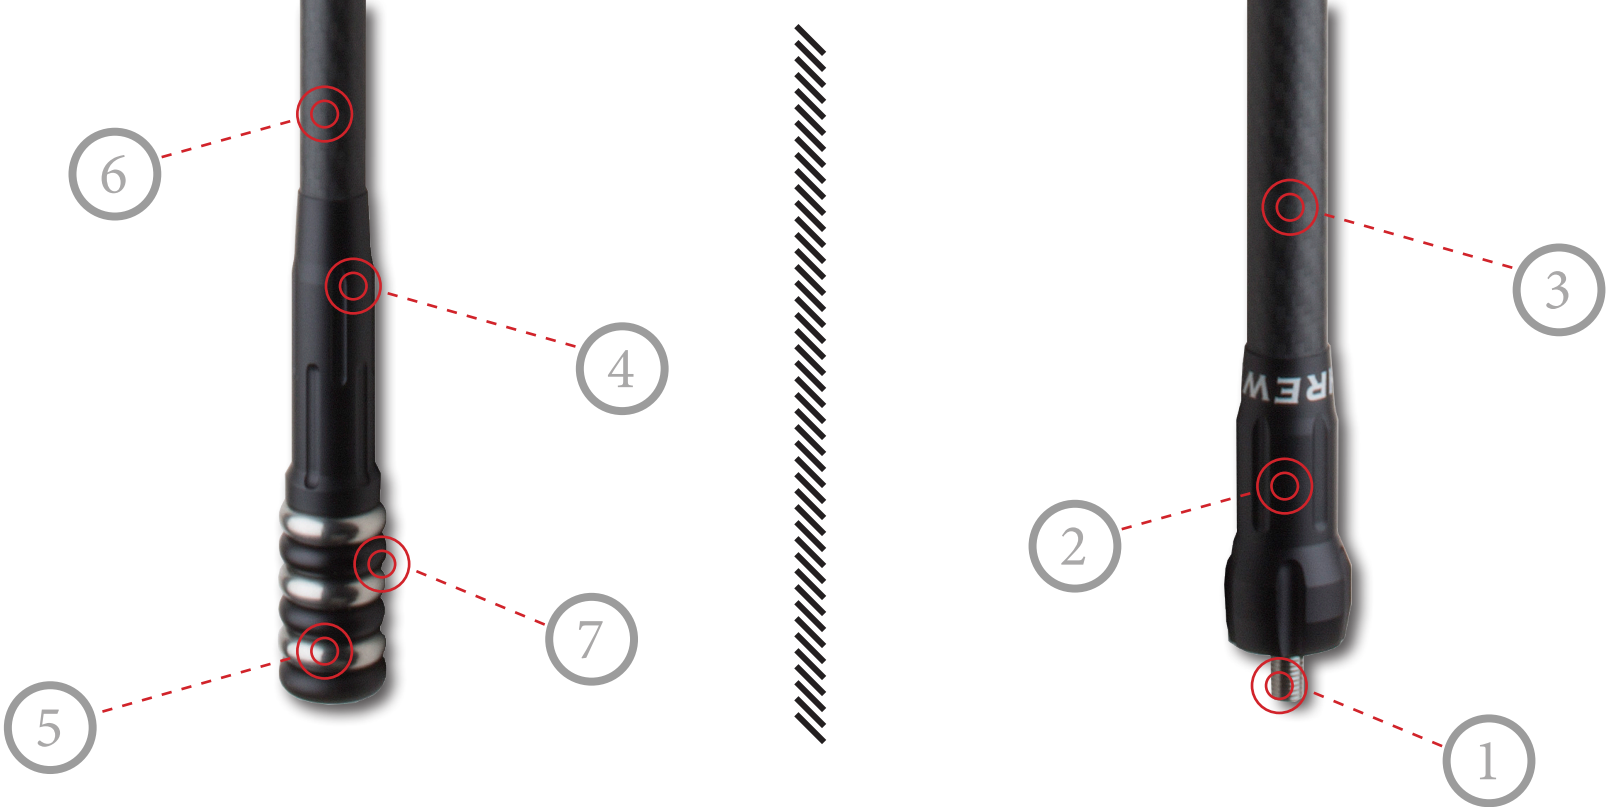

NOTHING ELSE COMES CLOSE

TRUSS DAMPENING TECHNOLOGY - INTERNAL ALUMINUM REINFORCEMENT - MATTE PREMIER MODULUS CARBON - STRENGTHENED END CAPS

ONYX SERIES

When we set out to change the stabilization market we didn't want to craft a product that just impressed shooters, we wanted pure shock and awe. The Onyx is an industry changing stabilizer inside and out. All new Truss Dampening Technology stretches the length of every Onyx stabilizer to perfectly balance the shot. An internal end cap on the bow end of the stabilizer reinforces the carbon to allow shooters to use more weight than ever before. To put it simply, nothing else comes close.

AVAILABLE IN: 8" // 10" // 12" // 14" // 18" // 20" // 22" // 24" // 26" // 28" // 30" // 32" // 34" // 36" //

- 5/16" - 24 STAINLESS STEEL THREADED BOLT 1
- INTERNAL ALUMINUM REINFORCED END CAP 2
- NEW .706" OD PREMIER MODULUS MATTE CARBON 3
- STRENGTHENED MATTE EXTERNAL END CAPS 4
- WEIGHT STACK WITH ADDITIONAL 1/3 OUNCE WEIGHT 5
- PROPRIETARY INTERNAL TRUSS DAMPENING TECHNOLOGY 6
- INTERNAL 3" THREADED ROD ALLOWS FOR UP TO NINE WEIGHTS 7

SHREWD 875 PRO
FORMER INDOOR NATIONAL CHAMPION

875 PRO

The largest diameter stabilizer in our Pro Series Line utilizes thick high modulus carbon and an internal dampening system to create the perfect stabilizer for shooters looking for a larger option. The 875 Pro Series comes standard with our standard weight stack and machined aluminum external end caps.

AVAILABLE IN: 8" // 10" // 12" // 14" // 18" // 20" // 22" // 24" // 26" // 28" // 30" // 32" // 34" // 36" //

WRIST SLING

The perfect compliment to a disconnect. Our wrist sling offers an integrated mounting point for all Shrewd disconnects to eliminate any movement. Braided nylon rope is controlled by small set screws that allow for full adjustment of the sling length.

ADJUSTABLE V-BARS

Machined to allow archers to adjust to the exact angle they are looking for, our fully adjustable v-bars continue to be the top choice for professional and amateur archers around the world

WHEN PASSION MEETS OBSESSION

WHAT HAPPENS WHEN WE PUT OUR DECADES OF TARGET ARCHERY
EXPERIENCE INTO A WHOLE NEW SERIES OF HUNTING PRODUCTS?
A REVOLUTIONARY NEW LINE OF HUNTING ACCESSORIES THAT WERE
CREATED FOR SHOOTERS, BY SHOOTERS.
SHREWD HUNTING IS HERE, SOUND THE HORN.

#SoundTheHorn

AMBUSH SERIES

The all new Ambush hunting stabilizer combines target archery stabilization with hunting durability. A carbon core complete with our new Truss Dampening System sits securely within a CNC machined 6061 aluminum exterior. Top that off with a Mathews® Harmonic Dampener and the result is a deadly quiet piece of an equipment born ready for the Ambush.

FLAT

LOST CAMO® XD

AVAILABLE IN // 6.5" // 8.5" //

RAID SERIES

We heard your requests and we've delivered. An all new carbon based hunting stabilizer that utilizes our Truss Dampening System, a Limbsaver Broadband dampener, and includes 3.5 ounces of interchangeable weight. Limbsaver's Broadband dampener utilizes NAVCOM material to reduce up to 70% of vibration, our Truss Dampening System does the rest. Sound the horn, the Raid is coming.

AVAILABLE IN // 7" // 9" // 12" //

SWIVEL DISCONNECT

Swivel in seconds to get on the move. The swivel disconnect allows for a shooter to easily fold up their stabilizer to be used as a handle when navigating dense woods or rough terrain. The included braided adjustable nylon rope creates a built in wrist sling without the hassle of adding anything extra.

- MATCHING BARREL NUT | 1
- BRAIDED ADJUSTABLE NYLON ROPE | 2
- QUICK SWIVEL FOR STORAGE AND CARRYING | 3

- 1 | COLOR DIPPED CARBON CORE
- 2 | REMOVEABLE DOINKER A-BOMB
- 3 | REMOVEABLE 2/3 OUNCE WEIGHT
- 4 | MACHINED ALUMINUM END CAPS

AVAILABLE IN // 6.5" // 8.5" // 11.5" //

HUNTER STABILIZER

Our hunter stabilizer is the perfect solution for an archer looking for extra adjustability. With a removeable Doinker A-Bomb and 2/3 ounce protective weight on a three inch threaded rod the Hunter Stabilizer still has plenty of room for the addition of extra weight to perfectly balance any hunting rig.
