- 554129389 Tigress youth compound, draw weight 6-10 lbs.

DAMON HOWATT

Hand-crafted adventure

2017 PRODUCT CATALOG

DAMON HOWATT

Hand-crafted adventure

Hand-crafted excellence. At Damon Howatt, we still do things the traditional way. Hand shaped, hand sanded and hand crafted. The process takes a little longer, but we believe you can see the results. We build more custom bows than any other traditional bow manufacturer. Each bow is built one at a time, each bow is a functional work of art, each bow has character and each bow tells a story. When you are looking for the finest American craftsmanship, look no further than Damon Howatt.

SCORPION

Beautifully Crafted Perfection.

Featuring individually stained hemlock wood fused with high-quality Gordon glass and hand-shaped in the USA. Each piece of wood is hand picked and each bow is carefully hand-made to perfection. This one-of-a-kind Damon Howatt recurve isn't just eye-catching, but it's also built on the legendary quality you expect from Damon Howatt.

HUNTER

The #1 Hunting Recurve.

NEW LOOK FOR 2017

The Hunter is perhaps the most successful traditional bow ever made. The Howatt Hunter was a popular model long before many of today's archers were even born!

Built for speed, the Hunter easily lives up to its name. Perfect for the archer with a longer than average draw length, the 62" Hunter will perform well for draw lengths up to 30".

DRAW WEIGHT
35 - 65 lbs
BRACE HEIGHT
6.75" - 7.75"
MASS WEIGHT

AMO LENGTH
62"

MAMBA

Short and quick.

The Mamba reflects many years of tradition, refined into one of today's most popular hunting models. This bow's short 58" length stores a great amount of energy quickly, and is especially suited for archers with draw lengths up to 28". Maneuverable and lightweight, this bow is as easy to carry as it is to look at!

FREEDOM

If you are looking for value in a traditional bow that has a reputation for American made quality, look no further. The 60" Freedom is ideally suited for both recreational shooters and serious hunters alike. Ample limb length allows for a smooth draw, and reinforced limb tips permit the use of any low-stretch bowstring material.

INDEPENDENCE

With a 52" AMO, the Independence gives you a quick snappy recurve that you can take anywhere. A stabilizer insert allows bowfishermen to take a quality Damon Howatt on the water. Several laminated hardwoods add to the richness and complexity of the appearance. For traditional archers looking for a light, short bow without sacrificing quality or shootability look no further than the Independence.

SAVANNAH

In the few years since its introduction, the Savannah has become one of the best selling longbows in our long history. The name Savannah is widely known and positively discussed in the circles of longbow enthusiasts. Its reflex / deflex design stores energy while eliminating the hand shock associated with many longbow models.

DRAW WEIGHT
40 - 65 lbs
BRACE HEIGHT
6.5" - 7.5"

STEALTH

The Savannah Stealth makes use of the silent, smooth, and proven design of the Savannah and cloaks it in dark woods and accents. The dark silver reinforced riser is accented with Zebra wood. Zebra wood also laminates both limbs all the way down to the reinforced limb tips. The dark varying shades and silent operation are perfect for the archer who wants a sleek looking bow that will also blend into the shadows.
