ACCESSORY.
WE'LL ADAPT.

SMARTBOW™

What is it?

It's more than the only bow that tunes 100% to you. SmartBows feature our game changing technologies that adapt to you. There is no need to compromise to your bow's will. **If you're not in control, you're not shooting a SmartBow.**

Frustrated with trying to tune your favorite rest to your current bow? Tired of struggling to get your field points and broadheads to hit in the same spot? Your bow hits in different spots based on the weather? "That bow only tunes nock high, this bow only tunes inside of center..." yeah right, we've all heard that.

Ours is different, you can throw anything at a SmartBow. Any arrow, any rest, or any grip. SmartBows adapt and put you in command. The only bow that allows you to choose what you want without compromise.

That's a SmartBow.

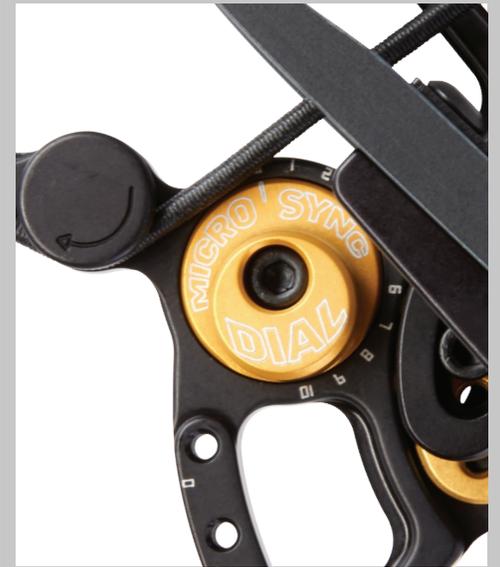

INDUSTRY LEADING INNOVATIONS

The only cam system that
tunes 100% to you.

Customize the draw cycle to adapt to your
shooting style.

The ability to precisely time cam position
without a bow press.

Simple tuning, perfect synchronization
maximizing accuracy.

Deadly quiet, vibration free,
unmatched balance.

Terminates riser torque for increased
forgiveness and accuracy.

Experience the genuine product. Don't settle for imitations.

#REFUSETOFOLLOW

REIGN™ 6

Our newest SmartBow is engineered as the ultimate shooting machine from beginning to end. The Reign is our smoothest drawing bow yet, transitioning flawlessly into full draw. You won't experience the dreaded hump you feel with other bows and when at full draw, it has a dead-solid back wall, so you can get on target quick and stay on target as long as you need. When the time comes to pull the trigger, you will feel the definition of 'Dead in Hand', with virtually no vibration on the shot and no movement off the target. Oh yeah, this is all done while launching arrows up to 350 feet per second.

SPECIFICATIONS

DRAW LENGTH	24-30"	AXLE-TO-AXLE	32 5/8"
SPEED	350 FPS	BRACE HEIGHT	6"
MASS WEIGHT	4.3 LBS	DRAW WEIGHT	50, 60, 70

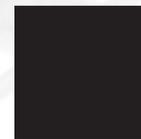

YOU MUST FEEL IT TO BELIEVE IT

Michael Hunsucker
Host, Heartland Bowhunter

"These bows are not only Smart, but Bowtech has redefined what a bow should be. It tunes like no other bow and feels great at the draw through the shot. It's packed with performance, giving me the confidence I need when in the stand."

REIGN 7

The definition of stability, this SmartBow is specifically engineered for those seeking the most tunable and forgiving bow on the market. From the moment you pick up the bow until shooting, you will feel the smoothest drawing, balanced and quiet 7" brace bow ever produced. A refined draw cycle produces a fluid draw experience from start to finish, without a harsh breakover as it reaches peak poundage. Forgiveness matters, that's why we engineered a solid back wall and allowed for a generous valley, virtually eliminating any jumpiness while at full draw. The Reign 7 is not only effortless to draw with enhanced stability, it happens to pack a punch at speeds up to 340 feet per second.

SPECIFICATIONS

DRAW LENGTH	25-31"	AXLE-TO-AXLE	32 5/8"
SPEED	340 FPS	BRACE HEIGHT	7"
MASS WEIGHT	4.3 LBS	DRAW WEIGHT	50, 60, 70

YOU MUST FEEL IT TO BELIEVE IT

Jim Burnworth
Host, Western Extreme

"This is Bowtech's best SmartBow ever! I have never felt a bow that holds this dead solid. I spent over 35 days in Africa with the Reign. I was able to make some insane long shots, that I would not try with any other bow."

FANATIC[®] 3.0

Getting to the top step of the podium requires archers to consistently hone their skills, as the competition is fierce. The Fanatic 3.0 evolved with that mindset. At the core of this bow is SmartBow technology, making it the only target bow that is 100% tunable to you. This bow will adapt to any arrow, accessory, or your personal grip preference. We have refined the already proven Fanatic series, paying attention to every detail.

- New grip geometry, providing a dead solid hold on target
- 10% stiffer riser for additional shot to shot consistency
- Increased string and cable strand count virtually eliminates creep
- Redesigned rear stabilizer mount
- Additional sight bracket threads for more options in sight configurations

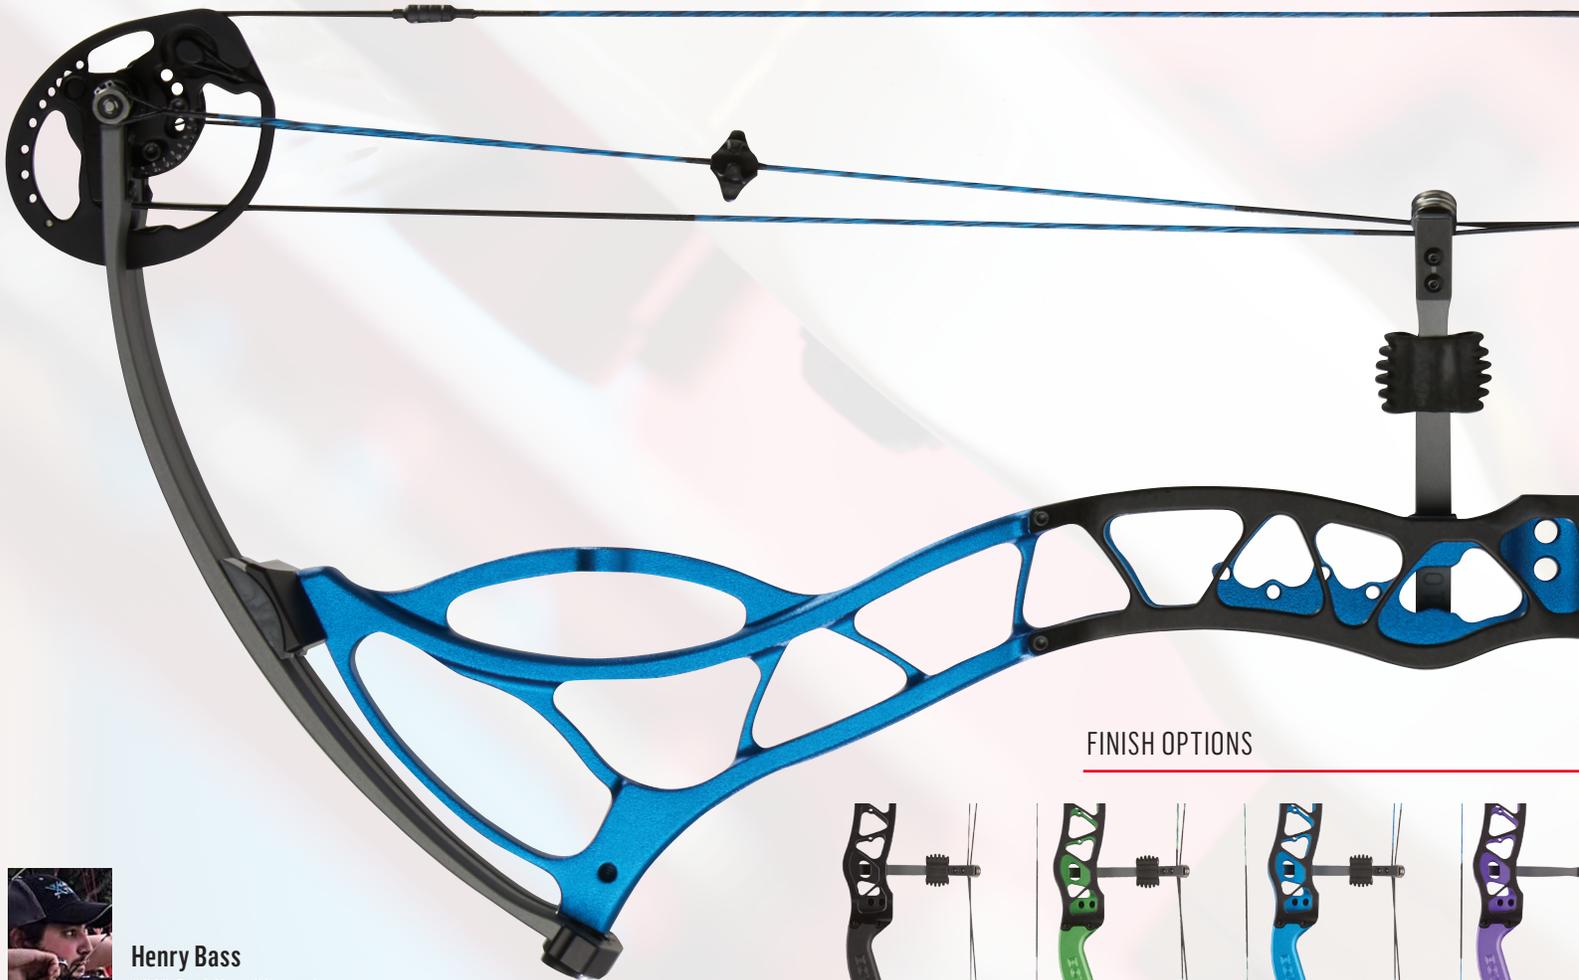

THE BEST JUST GOT BETTER.

FANATIC 3.0 SD SPECIFICATIONS

DRAW LENGTH	24-29"	AXLE-TO-AXLE	37 3/4"
SPEED	320 FPS	BRACE HEIGHT	7"
MASS WEIGHT	4.7 LBS	DRAW WEIGHT	40, 50, 60, 70

FANATIC 3.0 XL SPECIFICATIONS

DRAW LENGTH	28.5-32.5"	AXLE-TO-AXLE	37 3/4"
SPEED	315 FPS	BRACE HEIGHT	7 3/8"
MASS WEIGHT	4.7 LBS	DRAW WEIGHT	40, 50, 60, 70

Henry Bass
2016 Redding Champion

"The Fanatic is the best shooting, aiming and forgiving bow out there. Bowtech has utilized feedback from top archers like myself to create the ultimate target bow. Once you have shot this bow, you won't be able to put it down."

FLX-GUARD

Terminates riser torque for increased forgiveness and accuracy.

CPX

Center Pivot Risers: Deadly quiet, vibration free, unmatched balance.

BT-MAG™

If you prefer to go big on your bow, the BT-Mag is the smart choice. This SmartBow was engineered with major versatility in mind. If you prefer a longer axle-to-axle bow, this bow has you covered, but it doesn't stop there. The BT-Mag's refined OverDrive Binary cam system creates a silky-smooth draw, but also cranks out speeds up to 340 feet per second. Built on the CPX riser, this is the ultimate 3D target bow, offering stability and forgiveness. Available in 3 camo options and 6 target color choices, it is the premium choice for the big hunter or target archer alike.

SPECIFICATIONS

DRAW LENGTH	26.5-30"	AXLE-TO-AXLE	36"
SPEED	340 FPS	BRACE HEIGHT	6.75"
MASS WEIGHT	4.6 LBS	DRAW WEIGHT	50, 60, 70

GO BIG OR GO HOME.

Jim Shockey

Host, Jim Shockey's Hunting Adventures

"As of late, most other bows on the market have moved towards faster speeds, but sacrifice a smooth draw. This new Mag is the exception, as it provides both. I cannot believe how smooth and dead in the hand it is. Then again, it is a Bowtech and I shouldn't expect any less."

BT-X™ 31 & 28

Another member of the SmartBow family, the BT-X is the perfect combination of speed, balance, and strength in an ultra-compact design. The OverDrive Binary Cam system generates bone-crushing speed up to 350 feet per second, while providing ultimate tunability. The revolutionary skeletal riser was specifically engineered to remove unwanted weight for optimal balance and reinforced stability where it counts. The MicroSync dial, introduced on the BT-X, allows the shooter to precisely time cam position without a bow press for simplicity and tunability. The BT-X, built by serious archers, for serious archers.

SPEED. BALANCE. STRENGTH.

BT-X 28 SPECIFICATIONS

DRAW LENGTH	25.5-28"	AXLE-TO-AXLE	31"
SPEED	333 FPS	BRACE HEIGHT	6"
MASS WEIGHT	4.2 LBS	DRAW WEIGHT	50, 60, 70, 80

BT-X 31 SPECIFICATIONS

DRAW LENGTH	27-31"	AXLE-TO-AXLE	31"
SPEED	350 FPS	BRACE HEIGHT	6.25"
MASS WEIGHT	4.2 LBS	DRAW WEIGHT	50, 60, 70

Theresa Vail
Host, NRA All Access
Bowtech Ambassador

"What I love about the BT-X is the unmatched versatility. Having a short draw length has always been my limiting factor when searching for a bow that will optimize performance. With the BT-X, not only can it be adjusted to a 25.5-inch draw length, but with the PowerShift technology, I don't have to sacrifice speed, comfort, or draw weight—it's all maximized."
