MISSION[®]
BY MATHEWS[®]

2013

WHAT'S YOUR MISSION?

Mission® bows are designed, built, tested and approved by hard-working Americans in the heart of the Midwest, where boot-strap work ethics run deep and passion for hunting is as strong as the mighty Mississippi. Whether your interest is in bowhunting, crossbow hunting or competitive archery, Mission has a bow to get you on your way. We combine high-quality product and proven technology with exceptional customer service and a lifetime warranty to provide our customers with award-winning value (*Outdoor Life Best Buy Award 2011 & 2012*).

That's our Mission®, what's yours?

Made with pride in the USA
in Sparta, Wisconsin

VOYAGER XT™

▲ If you're looking for a smooth, well-balanced bow with serious speed and a virtually vibration-free release, the Voyager XT™ is the bow for you. Its long riser yields a strong, sturdy 34 inch axle-to-axle length, while the roller guard and single-cam system lend an ultra-silky draw. The VXT comes standard with a Dead End™ string stop and Harmonic Stabilizer™, so you can be sure this bow is super quiet and virtually dead-in-hand.

specifications

70 lbs	70	50	5
60 lbs	60	42	4.5
50 lbs	50	35	3.75

RALLY®

▲ If you're looking for a versatile bow that you can hunt and compete with, the Rally® is your bow. It offers unseen adjustability and performance in an entry-level target bow that can also hunt with the best of them. Thanks to the new patent-pending Opti-Mod™ cam system you can simply change a module on the cams to convert a 70lb. bow to a 60lb. bow, while maintaining draw length adjustability from 22 - 30 inches in half inch increments. So not only does the Rally® have all the adjustability of a modular two cam system, it rivals the down-range performance of high-end target bows with arrow splitting accuracy.

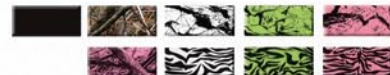

specifications

FILLED HIS TAG, FULFILLED A DREAM

The new 2013 Ballistic™ gives you premium performance
for those once-in-a-lifetime shots.

NEW
FOR 2013

BALLISTIC™

▲ The all new Ballistic™ features the proven technology of the AVS™ cam system, which is known for its smooth draw and incredible speed. The Ballistic™ not only looks like a high-end bow, it performs like one too. It's comfortable in hand, quiet, fast and deadly accurate. Epic hunts don't have to come at an epic price, and this bow is sure to be a top contender for "Best Buy" awards in 2013.

Harmonic Stabilizer™ is an optional aftermarket accessory.

Cable Guard // Carbon Rod

finish options

The AVS (Advanced Vectoring Cam System™) cam system is a proven synchronized dual cam technology that dynamically moves the force vector of the anchored cable from one side of the cam axle to the opposite side of the axle, which optimizes the draw force for energy storage and efficiency. With this high performance cam system, you will experience a smooth draw, with high let-off and powerful speed.

AVS ADVANCED
VECTORING
CAM SYSTEM™

VENTURE®

Mission® has built a reputation for building bows that outperform their price, and the Venture® is a stand-out in that category. The acclaimed "Great Buy" of 2011 is still one of the hottest bows on the market. Its compact frame is perfect for tree-stands and ground blinds and yet this sleek bow is packed with innovations such as the Dead End™ string stop, roller guard and String Suppressors.™ It's even machined to fit the Harmonic Stabilizer™ for added dampening. All said and done, the Venture® is a great hunting bow for an unbeatable price.

Harmonic Stabilizer™ is an optional aftermarket accessory.

WOMAN ON A MISSION

She went into the woods in search of big game, and in the process, she found herself. Bowhunting isn't just a sport or a past time, it can be a path to self-discovery.

RIOT®

The Riot® is the perfect bow for price-conscious bowhunters. On top of the incredible range of adjustability, you get a balanced 31 inch ATA, generous brace height and speed with a butter-smooth draw. We've even added a new and improved Dead End™ string stop which enhances the feel of this incredibly priced bow. At \$399, we are confident you won't find a better value for performance anywhere else.

CRAZE[®]

The Craze's[®] advanced dual cam system allows you to go from 15 to 70 lbs of draw weight and 19 to 30 inches of draw length, all with the comfort of up to 80% let off.

On top of all that adjustability, the Craze[®] is also one of the quietest and smoothest bows out there. The adjustability and compact frame make it perfect for beginners, but the performance is sure to meet the standards of seasoned bowhunters alike.

FULL DRAW, BUT NOT FULL GROWN?

Mission® bows provide hyper adjustability to fit growing the needs of this Manboy. So whether you're like him, and still growing, or simply want the ability to change draw length and draw weight, you can quickly and easily adjust Mission® bows like the Riot®, Craze® and the Menace®.

MENACE®

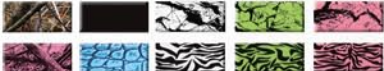

The Menace® is truly a universal bow that anyone from adults to young kids can shoot. Its perimeter-weighted dual cam system is smooth, balanced and super easy to adjust without a bow press. With the Menace®, you'll get ample power to hunt with, as well as the comfort of a light-weight design and high let-off. If you're interested in target shooting with the Menace®, be sure to check out the many custom colors available.
